RE: Architectural Short List

The Southwestern Community College A/E Review Committee has finished their review of proposals for the above referenced RFQ. Thank you for your patience. The District received over 30 proposals for each committee member to review and consider.

The following list identifies firms being placed on the District’s Short List for A/E Services. Individual Project Committees will invite firms from this list to propose and interview on a particular project based on qualifications and recent experience documentation contained in each qualification response. RFP’s for the first two projects are slated to send to selected firms in late May/June.

Baker Nowicki Design Studio
