Superintendent/President

Welcome to Southwestern College and the 2015–2016 academic year.

Southwestern College offers more than 312 degree and certificate options at our Chula Vista campus and Higher Education Centers in National City, Otay Mesa and San Ysidro and the Crown Cove Aquatic Center.

We know the personal connections you make with our dedicated faculty, staff and your academic peers are the difference in your academic success. We are here to support you. Mentors, tutors, student leaders and counselors are strong advocates for your academic journey. Many support services are located in the Cesar Chavez building on the Chula Vista campus and at each of the Higher Education Centers.

The college has also made significant changes to the semester schedule—reducing the semester from 18 weeks to 16 weeks without losing a minute of instruction. We've increased the number of classes available at 7 a.m., in the evening and on weekends to better meet the needs of our working students.

Big changes are on the horizon as well, as we plan and build new instructional buildings that will open and increase access to our students and community.

It's an exciting time to be a student at Southwestern College, and we're glad you're here. #weareJaguars

I wish you the best for a successful year.

Melinda Nish, Ed.D.
Superintendent/President

Southwestern Community College District Policy No. 1200
Revised & Adopted by SWC Governing Board on January 14, 2015

GUIDING PRINCIPLES

Southwestern College is chartered by the State of California to provide lower-division educational programs that prepare students for transfer to senior institutions, career and technical programs leading to direct entry into the workforce or career advancement. It is also chartered to provide basic skills that prepare students for college-level educational pursuits and to contribute to the economic development of our region. Within that context, the Governing Board adopted the Southwestern College Mission Statement.

Selecting a program of study is one of the most important decisions a student will make. The following pages present a complete listing of programs, degree requirements, and courses, as well as information about the many services the College District provides to assist students in reaching their educational goals.

Southwestern College offers many transfer and vocational/career programs in a variety of departments which are needed to prepare a student for transfer to a college or university or employment in business and industry. In addition to the major educational programs taught at the Chula Vista campus, the College District also offers courses at Higher Education Centers throughout the South County area and the Crown Cove Aquatic Center in Coronado.

Faculty and staff at Southwestern College have earned an outstanding reputation. Faculty possess substantial academic and professional backgrounds. Whether they are writing books, composing music, or digging for the archaeological remains of ancient civilizations, Southwestern College faculty members distinguish themselves among college educators. Faculty are appreciated by their students because they are excellent teachers, are accessible, and are committed to student success.

GETTING TO KNOW SOUTHWESTERN COLLEGE

SOUTHWESTERN COLLEGE HISTORY

The Southwestern Community College District, located south of San Diego and extending to the U.S.-Mexico border, is one of 72 community college districts in the California Community College system. It serves as the primary source of public higher education for approximately 400,000 residents of the South San Diego County area including the communities of Bonita, Chula Vista, Coronado, Imperial Beach, National City, Nestor, Otay Mesa, Palm City, San Ysidro and Sunnyside.

The College began offering classes to 1,657 students in 1961, with temporary quarters at Chula Vista High School. Groundbreaking for the present 156-acre Chula Vista campus was held in 1963; by September 1964, initial construction was completed and classes were being held at the new campus on the corner of Otay Lakes Road and H Street in Chula Vista.

In 1988, Southwestern College established its Higher Education Center at San Ysidro on the memorial site of the McDonalds tragedy. The College again expanded its off-campus locations in 1998 by establishing the Higher Education Center at National City. A new Higher Educational Center at Otay Mesa opened its doors in 2007 as a regional center for educational training and development. In 2009, a new state-of-the-art facility replaced the previous San Ysidro site to serve its students and the community.

In addition to its centers, Southwestern College also provides off-campus classes at several extension sites throughout the District and operates an Aquatic Center in Coronado in conjunction with the California Department of Boating and Waterways and the California Department of Parks and Recreation. Current enrollment—at all locations—exceeds 20,000 students. More than a half-million students have attended Southwestern College since its inception.

The Western Association of Schools and Colleges has continuously accredited SWC. The College offers a comprehensive curriculum, preparing students for transfer to four-year colleges or universities and for jobs and career advancement.

DIVERSITY INITIATIVE

Southwestern Community College District seeks to foster and engage diversity as integral to our learning community and in educational excellence. Diversity is valued as an essential cornerstone to civility, dignity, fairness, respect, and trust.

NONDISCRIMINATION STATEMENT

The Southwestern Community College District does not discriminate on the basis of race, color, religion, national origin, gender, sexual orientation, disability, age, or marital status in any of its policies, procedures, or practices. This nondiscrimination policy covers admission, employment, and access to all college programs and activities. Questions about the Rehabilitation Act of 1973, Section 504, and student grievances should be directed to the Dean of Student Services, at 619-482-6369. Title IX inquiries should be directed to the

Dean of Health, Exercise Science, Athletics and Applied Technology at 619-482-6551. Inquiries regarding Equal Employment Opportunity and other nondiscrimination policies and procedures should be directed to the Human Resources Compliance Coordinator, 619-482-6329.

EQUAL EMPLOYMENT OPPORTUNITY (EEO) POLICY STATEMENT

The Southwestern Community College District shall not discriminate against any person in employment or in any program affiliated with the District on the basis of age, ancestry, color, ethnic group identification, national origin, religion, race, gender or sex, sexual orientation, physical or mental disability, veteran status, or on the basis of these perceived characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics.

The District is committed to the implementation of its EEO Plan and to overcoming all forms of institutional and/or personal exclusion or discrimination within the District, whether purposeful or inadvertent. The Governing Board, administration, faculty and staff must recognize that equal employment opportunity is a shared responsibility. Each employee must be held accountable for application and enforcement of the EEO Plan within his or her area of authority. It is only through combined efforts that the District will successfully develop and maintain a workforce that is welcoming to all persons. The District will ensure that the recruitment, screening, selection, hiring and promotional processes are in accordance with principles of equal employment opportunity (District Policy & Procedure No. 7120, "Recruitment & Hiring"). In addition, the District will comply with Title I and Title II of the Americans with Disabilities Act of 1990, thereby promoting values of diversity and inclusion, benefiting all members of the Southwestern Community College District, including individuals from all ethnic and other groups protected from discrimination by Title 5, section 53000 et seq.

The Governing Board supports the intent set forth by the California Legislature to assure continuing good faith efforts are made to build a community in which opportunity is equalized. Its goal is to foster a climate of acceptance, with the inclusion of faculty and staff from a wide variety of backgrounds. It agrees that diversity in the academic environment fosters cultural awareness, mutual understanding, harmony and respect, increases student success and better enables students to flourish as citizens of the world. The Governing Board therefore commits itself to promoting the total realization of equal employment through a continuing equal employment opportunity program.

Note: The District's EEO Plan is posted on the website and is available in hard copy in the Offices of the Superintendent/President, the Vice President for Employee Services, Vice President for Academic Affairs, Vice President for Student Affairs, and Vice President for Business and Financial Affairs.

www.swccd.edu/hecnr

Established in 1998, the Higher Education Center at National City (HEC, NC) was built in a collaborative effort with the City of National City and the San Diego County Office of Education (SDCOE) to serve the educational needs of the residents of National City and its surrounding communities. This state-of-the-art facility includes 15 “smart” classrooms, 20-station computer lab, biology lab, medical assistant lab, yoga and step aerobics lab, bookstore, library, health services center, career/transfer center, one-stop Student Services Center, Family Resource Center, and 22-chair Dental Hygiene Clinic.

The Center’s faculty and staff members are committed to serve the academic needs of a diverse student population seeking personal enrichment, professional development, technical certification, and university transfer courses, by offering a wide spectrum of credit and noncredit offerings designed to prepare them for numerous educational and career opportunities. General class offerings include full-semester, late-start and fast-track courses available in the day and evening. Most are employed as registered dental hygienists in San Diego County.

The Medical Laboratory Technician Program (established in 2009) is one of the only two nationally accredited programs in the state of California. Students are prepared for success on two national certification examinations and subsequent state licensure, followed by fulfilling careers in medical laboratory science.

In 2010, the Medical Office Professions Program relocated to the National City Higher Education Center from the Chula Vista campus. The program prepares students to enter the medical assisting profession as clinical medical assistants, administrative medical assistants, or billing and coding specialists. Students practice techniques and procedures in classroom, laboratory, and clinical settings. Upon program completion, students are able to apply for medical assistant certification.

STUDENT SUCCESS AND SUPPORT PROGRAM (SSSP)

STEPS TO SUCCESS

SSSP services are coordinated by the Dean of Counseling and Student Support Programs. The SSSP matriculation process starts with services you will receive before you attend your first class and will continue throughout your educational experience. The process can be considered your steps to success to ensure that you get started and stay on the right track.

The Seymour-Campbell Student Success Act of 2012 established the SSSP "to increase California community college student access and success by providing effective core matriculation services, including orientation, assessment and placement, counseling, and other educational planning services, and academic interventions" and follow-up services for at-risk students. The Act emphasized support for "entering students' transition into college in order to provide

a foundation for student achievement and successful completion of students' educational goals, with priority placed on serving students who enroll to earn degrees, career technical certificates, transfer preparation, or career advancement."

The purpose of the SSSP is to ensure that all students promptly define their educational and career goals, complete their courses, persist to the next academic term, and achieve their educational objectives in a timely manner. The goal is that students benefit from comprehensive and integrated delivery of services to increase retention and to provide students with a foundation of student success.

Student Success and Support program services are vital to students' overall success and are designed to provide the environment to direct, focus, and nurture students, as well as to connect them to the college community. Five core services under SSSP are considered essential for student success: Orientation to college, Assessment and Placement services, Counseling and Advising services, Student Educational Planning, and follow-up services for at-risk students.

Southwestern College has created a comprehensive breadth of services to address the entire core services outlined in the SSSP program and is ready to serve students throughout their college experience. The Dean of Counseling and Student Support Programs is located in the Cesar E. Chavez Student Services Center and provides leadership to the Student Success and Support Program.

SSSP RIGHTS AND RESPONSIBILITIES

SSSP is a process that assists you in choosing, planning, and achieving your educational and career goals. It is Southwestern's way of supporting your right to succeed in college. SSSP is a partnership between you and Southwestern College.

Southwestern College agrees to:

- Evaluate your English, math, and reading skills.
- Help you register for appropriate classes.
- Provide you with an orientation, information on services available, and possible majors and/or careers.
- Provide access to counselors and instruction.
- Help you to develop a Student Educational Plan.
- Monitor your progress and provide follow-up services.

You agree to:

- Decide upon your major and goal or select a course of study.
- Complete assessment and orientation.
- Work with us to develop a Student Educational Plan by the time you have completed 15 units.
- Attend and complete courses to make the best use of the time you spend at Southwestern College.

The College may suspend or terminate services to any student who fails to fulfill his/her responsibilities. However, the College may never suspend or terminate any service for which a student is otherwise entitled under any other provision of law. In addition, students may challenge any SSSP requirement or regulation using the petition process. Petitions are available in the Assessment Center or the Office of the Dean of Counseling and Student Support Programs.

SSSP APPEALS PETITION— COMPLAINT OF UNLAWFUL DISCRIMINATION

An SSSP Appeals Petition may be filed if a student feels that assessment, orientation, counseling, prerequisite/corequisite, or any other matriculation procedure, is being applied in a discriminatory manner. Where a student believes an injustice is being done, the student may seek redress through established grievance policy and procedure. Procedural due process, under the student grievance policy, shall be adhered to in accordance with the following exceptions:

- When a student files a petition that relates to matriculation, the designated administrator shall be the Dean of Counseling and Student Support Programs.
- If a formal hearing procedure is necessary, the SSSP Appeals Committee membership shall consist of the Dean of Counseling and Student Support Programs, an Associated Student Organization (ASO) representative, and a member of the Matriculation Advisory Committee.

Students may file an SSSP Appeals Petition through the Assessment Center or the Office of the Dean of Counseling and Student Support Programs. You must provide compelling evidence to support the petition.

SSSP PROCESS

All non-exempt students are required to complete core services provided by SSSP. Those include: assessment and placement, orientation, counseling and advisement, and a Student Educational Plan. Completing these important first steps will also improve your Enrollment Priority date for registration. These steps are described more fully on the following pages.

New, returning, or transfer students who may be exempt from the SSSP process are students who:

- Already have an associate or bachelor's degree.
- Are attending Southwestern for personal enrichment.
- Are enrolled only in noncredit community education courses.
- Are taking classes only to upgrade job skills.
- Are enrolled in apprenticeship or other special vocational education programs.
- Are concurrently enrolled in another college or university.

Exempt students are not required to participate in the SSSP process, but are encouraged to see a counselor at any time.

Each student shall provide such information and evidence of residency as deemed necessary. The day immediately preceding the first day of instruction for the semester shall be the residency determination date for the fall and spring semesters. The day immediately preceding the first day of instruction for the first summer session shall be the residency determination date for all summer sessions.

RESIDENCY CATEGORIES

Applicants for admission to Southwestern College shall be classified under one of the two categories listed below.

Resident

A resident is classified as an applicant whose legal residence is in the Southwestern Community College District and who is classified as a resident of the state of California.

Nonresident

A nonresident is classified as an applicant who has not maintained a full year of continuous legal residency in California immediately prior to the residency determination date for the summer session or semester for which he/she seeks admission.

AB 540 Students

On October 12, 2001, Governor Davis signed into law Assembly Bill 540, which adds a new section to the California Education Code. It creates a new exemption from payment of nonresident tuition for certain nonresident students who have attended high school in California and received a high school diploma or its equivalent. This law provides an exemption from paying non-resident fees. However, it does not give the student resident classification status for any other purpose. Students who receive this exemption would be required to establish residency for any state-funded program (EOPS, BOGW, CalGrants). For more information contact Admissions at (619) 421-6700, ext. 5215 or 5216.

Establishing Residency

In order to be eligible to establish residency, a student must be a citizen of the United States, a permanent resident or an approved applicant for permanent residency, or on visa status that does not preclude him/her from establishing domicile in the United States. It is necessary that there be a union of act and intent. The act necessary to establish legal residency is physical presence in California. While intent may be subjective, there are many possible indications of one's intent to maintain legal residency in California. It is the responsibility of the applicant to furnish information and evidence of both physical presence and intent, as requested by Admissions.

RESIDENCY DETERMINATION OF STUDENT

The following items are pertinent to community colleges and are quoted from specific sections of the Education Code:

Legal Requirement

California state law requires that each student enrolled in or applying for admission to a California community college provide such information and evidence as deemed necessary by the Governing Board of the Southwestern Community College District to determine his/her residency classification.

Statutes

The statutes regarding residency determination are found in Sections 68000–68090 and 76140 of the Education Code, Sections 54000–54082 of the California Administrative Code, and Regulations of the Southwestern Community College District. These regulations are available in Admissions and are subject to the interpretation of the College.

RULES OF RESIDENCY

Adults over 19 years of age and married minors may establish California residency. A California resident, for purposes of postsecondary education, is defined as a person who has not only lived in the state for a minimum of one year prior to the residency determination date for the semester or summer session to which he/she is applying but can also verify clear intent to become a permanent resident of the state. (The residency determination date is the day before classes begin).

Note: It must be understood that no one factor is controlling and the burden of proof to establish residency is upon the student.

Primary Determinants

- Paying California state income tax as a resident.
- Maintaining California as legal state of residency on Leave and Earnings Statement (LES) and W-2 form while in the armed forces for one year prior to enrollment.
- Possessing California resident motor vehicle license plates and registration.
- Possessing valid California driver license.
- Registering to vote and voting in California.

Secondary Determinants

- Showing California as a home address on federal tax forms.
- Being a petitioner for divorce in California.
- Obtaining license from California for professional practice.
- Establishing and maintaining active California bank accounts.
- Owning residential property in California.
- Holding active membership in service or social clubs.
- Having spouse, children, or other close relatives reside in California.

Conduct Inconsistent with a Claim for California Residence

Conduct inconsistent with a claim of California residency includes, but is not limited to:

- Maintaining voter registration in another state.
- Being a petitioner for a divorce in another state.
- Attending an out-of-state institution as a resident of that state.
- Declaring nonresident for state income tax purposes.
- Retaining a driver's license and/or keeping a vehicle registered in another state during the time period for which California residency is claimed.
- Paying as a resident state income tax in another state.
- Having an alien status which is precluded by the Immigration and Nationality Act from establishing a residence in the United States.

For a listing of precluded visas or statuses, contact any Southwestern College Admissions Office or log onto www.swccd.edu select Admissions, then Residency.

Rules of Residency, Married Minors

A married student under 18 years of age may establish residency in the same manner as an adult.

Rules of Residency, Unmarried Minors

These conditions apply unless the minor is precluded by the Immigration and Nationality Act from establishing residency in the United States:

An unmarried student under 18 years of age derives residency from the parent with whom he or she is residing. If the student lives with neither parent, residency is derived from the parent with whom he or she last lived. The student may be classified as a resident if the parent has been a legal resident of California for more than one year immediately preceding the semester of admission. For more information please see, Nonresident Fee Exemption.

OTHER RESIDENCY OPTIONS

A student is also entitled to residency classification under the following circumstances:

- Student has been present with intent to become a resident in California for more than one year prior to the semester of admission.
- Student is over 18 years of age and has resided in California as a permanent resident more than one year prior to the semester of admission.
- Student is under 18 years of age and has resided with parent(s) as permanent resident(s) more than one year prior to the semester of admission.
- Student is a full-time employee of a public school district in a position requiring certification.
- Student is an apprentice as defined in Section 3077 of the Labor Code and enrolling in apprentice or related classes only.
- Student has earned livelihood primarily by performing agricultural labor for hire in California for at least two months per year in each of the two years preceding the semester of admission.
- Student has lived with parent(s) who is/are agricultural laborer(s) as specified above and is claimed as a tax dependent.

- Minor student has been under continuous care and control of adult(s), not a parent, for more than two years prior to the semester of admission. Such adult(s) must have been a California resident during the most recent year. Minor students must be enrolled full time.
- Student is active military.

A student is entitled to resident classification for the minimum time necessary to become a resident if the following circumstances apply:

- Minor student in continuous full-time attendance, whose parents had established California residency (one year) and left the state, may be classified as a resident until he/she has attained the age of 18 and can achieve residency on his/her own.
- Student is a dependent natural or adopted child, stepchild, or spouse of active military service person stationed in California.
- Student is a full-time contract/regular employee of the Southwestern Community College District.
- Student has not been an adult resident for one year and is a dependent child of a California resident.
- Student is a member of the armed forces who was stationed in California on active duty for more than one year prior to being discharged from the service.

Nonresident Student

A student classified as a nonresident will be required to pay tuition as a condition of and at the time of enrollment in an amount set forth by the Board of Trustees of the Southwestern Community College District. Information regarding tuition fees and refunds is found in the fee section of this catalog.

Nonresident Fee Exemption

Effective January 1, 2002, a new law (AB540) went into effect in the State of California providing an exemption from paying nonresident fees for certain nonresident students. While this exemption allows students to pay resident fees, it does not grant them resident status that would give them eligibility for any state-funded program. To be eligible for this exemption a student must meet the following criteria:

- Attendance at a high school in California for three or more years
- Graduation or attainment of a high school equivalency from a California high school
- Enrollment in college not earlier than the fall 2001 semester

For more information on this fee exemption, contact Admissions and Records.

Incorrect Classification

A student incorrectly classified as a California resident is subject to reclassification as a nonresident and to payment of nonresident tuition. If incorrect classification results from false or misleading facts, a student may be excluded from class or classes upon notification.

Reclassification

Reclassification to resident status must be requested by the student. Financial independence during the current year and preceding two years will be considered at the time the student requests reclassification. Information regarding requirements for reclassification is available in Admissions located in the Cesar E. Chavez Student Services Building.

Tuition fees will not be refunded to a student classified as a nonresident due to lack of documentation if at a later date documentation is presented for that previous semester.

Limitation of Residency Rules

The student is cautioned that this summation of rules regarding residency determination is by no means a complete explanation of their meaning. For further information, contact the residency clerk in Admissions. The student should also note that changes might have been made in the statutes and in the regulations between the time this statement is published and the beginning of the semester.

Appeal of Residency

A student may petition and appeal the residency classification decision within three days to the Dean of Student Services or designee.

The determination will be made based on the statement of legal residency, pertinent information contained in the student's file, and student's appeal. Notification will be sent to the student by email.

Admission in Error

Nonresident students, subject to payment of nonresident fees, who have been admitted to a class or classes in error without payment of the required fees, shall be excluded from such class or classes upon discovery pending payment of the fees.

Admission by Falsification

Falsification of information submitted on the application for admission will be grounds for exclusion from the College. Students excluded shall not be readmitted during that session or semester from which they were excluded. All debts incurred as a result of falsification must be paid prior to readmission.

STEP 2: ASSESSMENT, ORIENTATION AND ADVISEMENT

COMPLETE THE COLLEGE ASSESSMENT

Computerized assessment (basic skills placement testing) is available at the Assessment Center located in Room S107 in the Cesar E. Chavez Student Services Building. You should plan to take the assessment after you have completed Part 1 of the Online Orientation, and before you complete Part 2 of the Orientation. We highly recommend that you prepare and review materials before taking the assessment examinations. Information directing you to prepare is located in Part 1 of the Online Orientation or at the Assessment Centers webpage.

English, reading, and mathematics assessments are essential to evaluate skill levels and to assist in the selection of the proper level of coursework. These assessments are recommended before enrolling in English, reading, and mathematics courses. Many courses also have a recommended reading level that may be attained on the SWC Reading Assessment prior to enrollment.

WHY SHOULD I TAKE THE ASSESSMENT?

Assessment is a key component to effectively helping you start your college career at the levels most appropriate with your skills. Southwestern College has taken steps to ensure that our placement tests exceed state standards for effective placement so that you will not have to begin college in math and English courses that are too easy for you or too difficult for you.

DO I NEED TO STUDY OR REVIEW ANY MATERIAL FOR THIS ASSESSMENT?

Assessment is an important process that evaluates your English, reading, and math skill levels. While you cannot “fail” these tests, it is critical that you take the assessment seriously and that you take the time to prepare for the tests as your results will directly impact the coursework you will need to complete at Southwestern College. Doing so could save you time and money!

If you do not take these tests seriously or if you are not prepared to take the tests, you could spend 3 or more semesters in math, 2 or more semesters in English, and 3 or more semesters in reading before you reach college-level or transfer-level coursework.

Therefore, it is recommended that you become familiar with the types of test items you will experience when you take the College Assessment. Practice tests and test guides are available online at <http://www.swccd.edu/assessment>. These free practice tests and guides are also available at the Assessment Center located in Room S107 in the Cesar E. Chavez Student Services Building. More extensive math practice tests are available at the College Bookstore for a nominal fee.

WHO SHOULD BE ASSESSED?

Assessment is strongly recommended, and usually required, if you indicate on your admissions application that your primary educational objective at Southwestern College is:

- Career/Technical
- Associate degree
- Transfer to a four-year college/ university
- Undecided
- Major other than self-improvement or job advancement

Assessment is also highly recommended if you plan to:

- Enroll in courses with recommended reading preparation
- Enroll in any reading, math, English, or English as a Second Language (ESL) course requiring or recommending specified assessment skill levels

It is important to take all three assessments before registering for your first semester at Southwestern College. English, reading, and math results are considered valid for three years. You may attempt each of the placement tests twice in any one semester and a total of three times during your enrollment at Southwestern College. If your assessment results have become invalid due to a three-year lapse, you may retake the tests but are subject to the same retest policy (twice in one semester and a total of three times). You may attempt to have the three-test limitation waived by filing an appeal through the Assessment Center.

ESL placement results are valid for only one year. The ESL assessment may be repeated after one year.

All placement tests are strongly recommended but not mandatory. Assessment assists in matching you with courses most appropriate to your skill levels. If you decide not to be assessed, it is recommended that you complete a self-exemption form available in the Assessment Center.

You may also be matched with appropriate courses without taking the placement tests if you have:

- completed courses (with a grade of “C” or better, or “Pass”) at another college or university that are equivalent to Southwestern College courses requiring or recommending specified assessment skill levels (proof of successful course completion must be submitted with a Prerequisite Evaluation Request form to the Assessment Center)
- OR
- assessment results from other colleges or universities (documents showing raw test scores taken within the last three years must be submitted with a Prerequisite Evaluation Request form to the Assessment Center)

WHEN AND WHERE IS THE ASSESSMENT GIVEN?

Assessment is offered at the Assessment Center located in Room S107 in the Cesar E. Chavez Student Services Building. Assessment is also often available at all three Higher Education Centers.

Assessment schedules for all sites are listed on the College website at <http://www.swccd.edu/assessment>. Placement tests are given on a walk-in basis within the times listed on the schedules.

ARE THE PLACEMENT TESTS TIMED?

Yes. Most students complete the English, reading, and math tests in about two hours and 15 minutes. Students with disabilities may request additional time to complete the tests.

WHEN WILL I RECEIVE THE RESULTS FROM MY ASSESSMENT?

You will receive English, reading, and mathematics results immediately upon completion of your assessment. ESL placement results are available at the Assessment Center within two weeks after you tested. You can

also access all of your placement results in the Academic Profile section of WebAdvisor.

ARE SPECIAL ACCOMMODATIONS AVAILABLE FOR STUDENTS WITH DISABILITIES?

Individualized accommodations are provided to meet the needs of students with disabilities. Accommodations offered include extended testing time, reader and/or writer, large-print tests, and Zoom Text. Students needing such accommodations should contact Disability Support Services (Room S108 in the Cesar E. Chavez Student Services Building) prior to scheduling an assessment.

WILL THE ASSESSMENT AFFECT MY ACCEPTANCE TO SOUTHWESTERN COLLEGE?

The assessment will not affect your acceptance to the College. However, the results may affect acceptance into some programs at the College, such as Nursing.

ASSESSMENT AND GRADUATION REQUIREMENTS

All students who plan to graduate with an associate degree are required to meet reading, writing, and mathematics proficiencies. The reading and mathematics proficiencies

may be met by satisfactory performance on specific assessments. For more information, see Graduation Requirements, page 62.

STEP 3: REGISTRATION

REGISTER FOR CLASSES

Each student is responsible for registering for their classes, attending every class meeting, and informing instructors in case of absence.

Ensuring Academic Success

- Only enroll in the courses you are confident you will complete.
- Be disciplined; complete your assignments.
- Attend class regularly.

For more assistance in strengthening study skills strategies, visit the Academic Success Center in Building 420 or enroll in a learning skills course.

CHANGE OF RECORDS

Change of Address

Update your contact information (mailing address, email address, and telephone number) online on WebAdvisor. Go to

<https://webadvisor.swccd.edu>, log in, and then select "update your email, telephone number, and address." Failure to comply with this may result in an administrative hold.

Change of Name

Any change of the student's name should be reported to Admissions. Contact Admissions for acceptable forms of identification to submit for verification of the name change. Students reporting name changes during a semester are advised also to notify their instructors in order to maintain proper recognition and identification.

COURSE ENROLLMENT POLICIES

Each student is responsible for his/her registration of classes; attending every class meeting, informing instructors in case of absence, and officially withdrawing from classes. Furthermore, each student is responsible for following the rules and regulations in this catalog.

Enrolling in courses at Southwestern College requires you to complete several steps in the registration process. Registration information and materials to enroll in classes may be obtained online on WebAdvisor at www.swccd.edu or in Admissions located in the Cesar E. Chavez Student Services Building at the Chula Vista campus, the Higher Education Centers at National City, Otay Mesa or San Ysidro. Southwestern College provides an online schedule of classes prior to the beginning of each semester. The schedule delineates registration timelines, enrollment procedures, fees and tuition, and a complete listing of courses to be offered that term.

Before registering, you should read each course description carefully to ensure you are registering for the courses you need to meet your educational goals. You will need to develop a Student Educational Plan (SEP) to determine the classes you need to take.

Many courses restrict enrollment to students who have not met or are currently meeting the level of preparation that is deemed essential to student success in those courses. These restrictions are called prerequisites, corequisites, and limitations on enrollment. Courses may also have a recommended preparation or recommended concurrent enrollment that will enhance your chances of success in these classes.

Recognizing that the proper establishment of prerequisites, corequisites, limitations on enrollment, and/or recommendations are critical to student learning, the Southwestern College faculty has taken the great effort to ensure your success by diligently reviewing each requisite and recommendation prior to its implementation. The College endeavors to inform you of the skills needed to succeed before you enroll in these courses.

Therefore, you should plan to follow all course prerequisites, corequisites, limitations, and recommended preparation. Being adequately prepared for courses will expedite your progress in reaching your educational goals.

Open Enrollment

It is the policy of the Southwestern Community College District that every course and course section offered by the College District shall be open to enrollment and participation by any person who is eligible for admission and who meets such prerequisites as may be established pursuant to Title 5 of the California Administrative Code. (Policy No. 5052).

Enrollment Priorities

It is the intent of the Board of Governors of the California Community Colleges to provide priority registration for students who enroll in a community college for degree or certificate attainment, transfer to four-year college or university, or career advancement.

PREREQUISITE

A prerequisite is a course or qualification that must be satisfactorily completed before you may register for another course. The skills or knowledge provided in the prerequisite course has been deemed necessary for your success in the subsequent course. A minimum grade of “C” or “Pass” must be earned in the prerequisite course.

Prerequisites are enforced at Southwestern College. If you have not met the listed prerequisites, you will not be able to enroll in courses requiring the prerequisites. Prerequisites may be met by satisfactory completion of courses at Southwestern College or equivalent coursework at another college or university. Some prerequisites may also be fulfilled by satisfactory results on the appropriate validated Southwestern College Assessment. If prerequisites were completed at another college or university, you will need to bring copies of appropriate transcripts/grade reports and/or assessment results to the Assessment Center to clear the requirements prior to registration. The Assessment Center is located in the Cesar E. Chavez Student Services Building. Students may challenge prerequisites. For more information, see Requisite Challenge in the next column (Policy No. 7025).

COREQUISITE

A corequisite is a course which must be taken during the same semester as another course. In other words, when a course has a corequisite listed, you must register for those courses (often a lecture and lab) concurrently. Knowing the information being presented in the corequisite course is deemed necessary for successful completion of the other course(s).

Corequisites are enforced at Southwestern College. If you do not enroll in all listed corequisites, you will be dropped from the courses requiring the corequisites. Similarly, if you are enrolled in courses that are corequisites and you drop one course, you will be dropped administratively (or by computer) from the other course. Students may challenge corequisites. For more information, see Requisite Challenge below (Policy No. 7025).

LIMITATION ON ENROLLMENT

Performance courses may require students to try out for intercollegiate athletic teams or to audition for courses involving public performances (for example, chorus, forensic speech, and theatre) prior to enrollment.

Enrollment in blocks of courses or sections may be a requirement so that a group of students will enroll together in that set of classes. Students are part of a special program such as a Learning Community or Puento.

Enrollment may be limited due to legal requirements (imposed by statute, regulation, and/or contract). For example, some courses may require a student to have a valid driver license, health clearance, nursing license or certificate, etc.

Limitations on enrollment are enforced at Southwestern College. Students may challenge limitations on enrollment. For more information, see Requisite Challenge below (Policy No. 7025).

REQUISITE CHALLENGE

The Requisite Challenge Form allows students to challenge any course requisite. You may file a challenge based on one or more of the following reasons:

- You have the knowledge or ability to succeed in the course despite not meeting the course requisite. You must provide documentation that explains/demonstrates that you have the background, skills, or abilities to succeed in the desired course.
- You believe you will be subject to undue delay in attaining the goals of your educational plan due to a limitation on enrollment or because the prerequisite or corequisite course has not been made reasonably available. Consideration is typically given only when either (1) the prerequisite/corequisite has not been offered for two consecutive semesters or (2) the prerequisite/corequisite is necessary for graduation, transfer, or a certificate, but the requisite is unavailable due to the number of course sections offered.
- You believe the prerequisite, corequisite, or limitation on enrollment has been established in violation of Title 5 regulations and/or the Southwestern Community College District's process for establishing prerequisites, corequisites, and limitations.
- You believe the prerequisite, corequisite, or limitation on enrollment is discriminatory or is being applied in a discriminatory manner.

Students may file a Requisite Challenge Form through the Assessment Center. You must provide compelling evidence to support your challenge, attach documents (transcripts, evidence of work experience, etc.), and information necessary to support the challenge. The Requisite Challenge Form will be forwarded to the appropriate School Dean or designee for determination. Ten working days (15 days during summer) subsequent to your submitting the challenge form, results may be picked up at the Assessment Center or, at your request, the results will be emailed to you.

A student wishing to appeal the decision of the dean may request a meeting with the appropriate School Dean, Department Chair, and the Vice President for Academic Affairs or designee.

RECOMMENDED PREPARATION

Recommended preparation is previous training or coursework that helps a student successfully complete a subsequent course. Completion of the recommended preparation course with a grade of “C” or better increases student success. To improve your chances for success, you are strongly encouraged to follow recommended preparation whenever it is listed in the class schedule. Enrollment may not be denied to any student not meeting a recommended preparation.

RECOMMENDED CONCURRENT ENROLLMENT

Recommended concurrent enrollment is a course that a student should complete—but is not required to complete—while enrolled for another course. Enrollment in such a course improves student success. You are strongly encouraged to follow recommended concurrent enrollment whenever it is listed in the catalog to improve your chances for success in Southwestern College courses. Enrollment may not be denied to any student not meeting a recommended concurrent enrollment.

COURSE RESTRICTIONS

Unit Enrollment Limit

The number of units or credits for full-time status is 12 or more per semester. On average, a student should expect to spend three hours per week in class and in study for each unit of college credit. Students enrolling in 15–16 units per semester are usually committing themselves to more than 40 hours per week of study.

Due to State budget cuts and workload reductions, Southwestern College reserves the right to restrict the maximum units into which students can enroll during the first three weeks of the registration periods. Please contact the Dean of Student Services for current information.

The maximum number of units for which a student may register is 19. Anyone who would like to enroll for more than the maximum per semester must petition for exception with the Dean of Counseling and Matriculation Services prior to adding the classes. Prior to filing a petition of exception, a student should consult with a counselor to discuss the advisability of enrolling in additional units. Petitions are filed with Counseling.

Thirty-Unit Remediation Limit

Students will not receive credit for more than 30 units of remedial or basic skills courses in the College District. ESL and DSS related courses are exempt from this policy. A student who exhausts this unit limitation will be referred to appropriate noncredit continuing education services with certain exceptions.

COURSE OVERLAYS

State law prohibits a student from enrolling in courses that meet at the same time. Should a slight time overlap of 15 minutes per week occur, an overlay petition may be submitted to Admissions for approval. The petition should specifically indicate when the time will be made up for one of the two courses, and it should also include the instructor's signature. Petitions and information are available in Admissions and Information Desk at the Chula Vista campus, the Higher Education Centers at National City, Otay Mesa, or San Ysidro, and online at www.swccd.edu (click on Admissions then click on printable forms.)

FIELD TRIPS

Throughout the academic year, the College District may sponsor voluntary field trips and excursions in connection with courses. Students should be advised that if they participate in a voluntary field trip or excursion, they will be deemed to have held harmless the College District, its officers, agents, and employees from all liability or claims which may arise out of or in connection with their participation in this activity. Normally, when a class meets off campus, the students will be responsible for arranging their own transportation to those locations (Policy No. 7011).

TRANSPORTATION

Throughout the academic year, some activities and classes may meet at off-campus locations. The College will not provide transportation to these sites, and all transportation arrangements are the responsibility of each student enrolled in the activity or in the class. Although College District personnel may assist in coordinating this transportation and/or may recommend travel time, routes, caravanning, etc., these are only recommendations and are not mandatory. The College District is in no way responsible for and does not assume liability for any injuries or losses resulting from this nondistrict-sponsored transportation. If transportation is arranged with another student, that student is not an agent of or driving on behalf of the College District.

CLASS CHANGES

Students are responsible for each course he/she enrolls in during registration. Official class withdrawals are made the first week through the end of the third week of classes for a regular semester and will not appear on the student's record, (deadlines are published for fast-track courses or summer session). (Policy No. 5070)

ADDING CLASS(ES) AFTER THE SEMESTER OR SESSION BEGINS

Students may add a class only during the official add/drop period by attending class and obtaining an add code from the instructor. For online courses, students must email the instructor to obtain an add code. Students may register with the add code online on WebAdvisor, or by submitting the add code in person at Admissions on the Chula Vista campus or at the Higher Education Center at National City, Otay Mesa, or San Ysidro during the add/drop period. Students must present a valid Student Identification Card.

Note: A class enrollment is official when the add code is processed and fees are paid. A request to add a course may be accepted but later denied if found to be a repeated course or prerequisites have not been met. In addition, an instructor adding a student's name to the class roster does not enroll the student.

DROPPING CLASSES

Dropping is ending enrollment in a class prior to about the 20% point of class meetings. A drop is not recorded on the student's academic record.

Students are responsible to officially drop (withdraw from) a course they no longer wish to attend. Students may drop classes online on WebAdvisor or by filing an Add/Drop Slip in Admissions on the Chula Vista campus or the Higher Education Centers at National City, Otay Mesa, or San Ysidro. Students who do not drop (withdraw from) a course in a timely manner may incur a financial obligation in addition to a substandard grade.

Students must drop (withdraw from) a course prior to the end of the second week of the semester to be eligible for a refund. Students must drop (withdraw from) classes prior to the end of the third week of the semester to ensure there will be no record of their enrollment and no "W" withdrawal grade on their transcript (deadline established for short session classes or a summer session).

DROPPING STUDENTS

While primary responsibility for class attendance and maintaining an accurate registration record rests with the students, the instructor is charged with the responsibility for maintaining accurate and proper accountability records for state apportionment.

- Instructors are required by Title 5 to clear their rosters of all inactive students no later than the last business day prior to the Census Date for the semester or session. "Inactive students" include:
 - students identified as no-shows
 - students who are no longer participating in the courses
 - students who have officially withdrawn
- Instructors must drop any student who fails to notify their instructor of their absence or who fails to attend the first class meeting if the class is at maximum enrollment and other students are waiting to enroll.
- Students will be dropped from class for lack of a prerequisite.
- After the add/drop period of the term, a student may be dropped from the class when the total hours of absences for any reason exceed twice the number of hours indicated for that course in the College Catalog. Attendance requirements may vary in programs where attendance regulations are established by an outside regulatory agency. When this occurs, students will be notified in advance of the attendance requirements of the program.

For more information regarding course adds and drops please see District Procedure No. 5075

Note: For short-term classes please check the instructor's syllabi for dropping requirements.

WITHDRAWING FROM CLASSES

Withdrawing is ending enrollment in a class between about the 20% point and about the 75% point of class meetings. A withdrawal is recorded as a "W" and is a permanent symbol on the student's academic record. It is included in progress probation and disqualification determination.

Students are responsible to officially withdraw from a course he/she no longer wishes to attend. Students may drop classes online on WebAdvisor or by filing an Add/Drop Slip in Admissions on the Chula Vista campus, or the Higher Education Centers at National City, Otay Mesa, or San Ysidro. Students who do not withdraw from a course in a timely manner may incur a financial obligation in addition to a substandard grade.

Students must withdraw from a course prior to the end of the second week of the semester to be eligible for a refund. Students must withdraw from classes prior to the end of the third week of the semester to ensure there will be no record of their enrollment and no "W" withdrawal grade on their transcript.

Students who withdraw from a course from the fourth week through the twelfth week of the regular semester (deadline established for short session classes or a summer session) will receive a "W" grade. After the withdrawal deadline, students must be assigned a grade (A, B, C, D, F, P, NP, or I).

COURSE REPETITION AND COURSE WITHDRAWAL

The Southwestern Community College District Governing Board, in compliance with Title 5 regulations permits the following:

Course Repetition Due to Substandard Grades and/or Withdrawals

If a student receives any combination of three (3) substandard academic grades (D, F, or NP) and/or "W" withdrawal symbols, the student will not be allowed to have a fourth attempt in the same course at Southwestern College. If the student can demonstrate extenuating circumstances requiring one additional repetition, the student may petition and attach the supporting documentation. Extenuating circumstances are verified cases of accidents, illnesses or other circumstances beyond the control of the student.

When course repetition and/or course withdrawal occurs, the permanent academic record shall be annotated in such a manner that all student work is transcribed and remains legible, ensuring a true and complete academic history.

Course Repetition of Previously Passed Courses

Students may petition for course repetition in the following areas which the course(s) has already been successfully passed.

- I. Significant Lapse of Time
- II. Variable Units—Open Entry/Open Exit
- III. Occupational Work Experience
- IV. Special classes for students with disabilities
- V. Legally Mandated Training
- VI. Significant Change in Industry

The Governing Board or its designee, in collaboration with the Academic Senate, shall establish procedures regarding course repetition/course withdrawal.

COURSE REPETITION AND COURSE WITHDRAWAL

Southwestern Community College District will make provisions for a student to repeat a course with a substandard grade and/or withdrawal under the following circumstances:

I. Course Repetition due to substandard grades and/or withdrawals

1. If a student receives any combination of three (3) substandard academic grades (D, F, or NP) or "W" withdrawal symbols, the student will not be allowed to have fourth attempt in the same course at Southwestern College. If the student can demonstrate extenuating circumstances requiring one additional repetition, the student may petition and attach the supporting documentation. See Section IX, "Petition Process," for more information.
2. When a student attempts to enroll for the second time in a course in which he/she has achieved a substandard academic grade and/or "W" withdrawal, the student will be notified electronically of the course repetition and withdrawal policy. The student will have to acknowledge receipt and understanding of the policy and will be required to complete an online tutorial. The tutorial will detail the academic options and referrals to appropriate resources such as Counseling, Academic Success

Center/Tutorials, and/or department faculty.

Once a student achieves substandard academic grade and/or "W" withdrawal in the same course for a third time, a fourth repetition will not be allowed. Exceptions to this procedure may be approved only through a petition process. See Section IX, "Petition Process," for more information.

3. If a student passes a course on the second or any subsequent try, all previous substandard grades for that class shall be excluded from calculating student GPA. However, all grades shall be recorded on the student's transcript ensuring that student records are accurate and complete and grading procedures are transparent.
4. The Southwestern Community College District may not claim apportionment for a student who re-enrolls in a particular course in which the student has already earned any combination of three (3) substandard grades and/or Withdrawals "W." The College District may claim apportionment for the fourth attempt, if the petition for extenuating circumstance is approved. See Section IX, "Petition Process," for more information.

In addition, students may petition for course repetition in the following areas which the course(s) has already been successfully passed.

II. Course Repetition—Significant Lapse of Time

1. Students are permitted to repeat courses in which a "C" or better grade was earned where there was a significant lapse in time since the grade was obtained and
 - The College District has defined a significant lapse of time as no less than three (3) years and has established a recency prerequisite for a course or program; or
 - An institution of higher education to which the student wishes to transfer has established a recency requirement that the student cannot satisfy without repeating the course. Students may petition to repeat where the significant lapse of time is less than 36 months, if the student can provide documents where the repetition is necessary for the student to transfer to the institution of higher education.

- When a student needs to repeat a course due to a significant lapse of time as defined in these procedures, the student must submit a petition. See Section IX "Petition Process" for more information.
- When a course is repeated due to a significant lapse of time as defined in II (1), the College District will disregard the previous grade and credit when computing a student's grade point average.

III. Course Repetition—Variable Units – Open entry/Open exit

- Students may be permitted to enroll in variable unit open-entry/open-exit courses as many times as necessary to enable them to complete the entire curriculum of the course once.
- Students may not repeat variable unit open-entry/open-exit courses unless:
 - The course is required for legally mandated training; or
 - The course is a special class for students with disabilities which needs to be repeated; or
 - The student wishes to repeat the course to alleviate substandard work.
- Whenever a student enrolls in a physical educational activity course offered for open entry/open exit, the enrollment will count as a repetition of the course.

IV. Occupational Work Experience

A student may repeat an occupational work experience course up to sixteen (16) units total and limited to eight (8) units of occupational work experience per semester. Each repetition is recorded and is included in the purpose of the calculation of student's grade point average.

V. Special Classes for Students with Disabilities

Students with verified disabilities who are enrolled in non-degree Personal Development courses (special classes pursuant to Title 5) within Disability Support Services may repeat courses any number of times based on an individualized determination that such repetition is required as a disability related accommodation for that particular student.

Student may petition to repeat a special class when:

- Continuing success of the student in other general and/or special classes is dependent on additional repetitions of a specific special class

- Additional repetitions of a specific special class are essential to completing a student's preparation for enrollment into other regular or special classes
- The student has a student educational contract which involves a goal other than completion of the special class in question and repetition of the course will further achievement of that goal.

VI. Legally mandated training

A student may repeat a course with no limit to meet legally-mandated training requirements as a condition of continued paid or volunteer employment. The student must petition and provide documentation that course repetition is legally mandated. Courses may be repeated, regardless of whether or not substandard academic work was previously recorded. Each grade received shall be included for purposes of calculating the student's grade point average.

VII. Significant Change in Industry

Student may repeat a course as a result of a significant change in industry or licensure standards such that repetition of the course is necessary for employment or licensure. Student must petition and provide documents that there has been a significant change in industry or licensure standards necessitating course repetition.

VIII. Course Withdrawal

- In the event of extenuating circumstances which occur after the end of the fourteenth week or 75 percent of a term, the College District may, in consultation with appropriate faculty, allow a withdrawal "W" after the deadline. It shall be recorded as a "W." The withdrawal "W" will still count towards the maximum number of withdrawals.

Note: For the purposes of this section, "appropriate faculty" means the instructor of the course section or in the event the instructor cannot be contacted, the department chair or cognizant dean.

- Students will not receive a "W" for a withdrawal that is determined to be due to discriminatory treatment or retaliation for alleging discriminatory treatment. Students may petition to re-enroll in the same course if the reason for one or more of

the withdrawals is determined to be due to discriminatory treatment or retaliation for alleging discriminatory treatment. The course of action for determining discriminatory treatment is outlined in the Standards of Student Conduct procedures.

- Military Withdrawal. "MW" occurs when a student who is a member of an active or reserve United States military service receives orders compelling the student to withdraw from the courses. The withdrawal symbol assigned will be a "MW." Military withdrawals shall not be counted in progress probation, dismissal calculations or towards the number of permissible withdrawals.
- When course repetition or withdrawal occurs, all grades shall be recorded on the student's transcript ensuring that student records are accurate and complete and grading procedures are transparent.
- Courses approved for Academic Renewal will still apply to the student's academic record for the purposes of the Course Repetition and Course Withdrawal Policy and Procedure.

IX. Petition Process

Students will utilize the petition process for Course Repetition for the following areas:

Course Repetition and Course Withdrawal – Fourth Attempt

If a student can demonstrate extenuating circumstances requiring one additional repetition, the student may petition and attach the supporting documentation. Extenuating circumstances are verified cases of accidents, illnesses or other circumstances beyond the control of the student.

Significant Lapse of Time

Students may petition to repeat where the significant lapse of time is less than 36 months, if the student can provide documents where the repetition is necessary for the student to transfer to the institution of higher education.

Special Classes for Students with Disabilities

Student may petition to repeat a special class when:

- Continuing success of the student in other general and/or special classes is dependent on additional repetitions of a specific special class;
- Additional repetitions of a specific special class are essential to completing a student's preparation for enrollment into other regular or special classes;
- The student has a student educational contract which involves a goal other than completion of the special class in question and repetition of the course will further achievement of that goal.

Legally Mandated Training

A student may repeat a course with no limit to meet legally-mandated training requirements as a condition of continued paid or volunteer employment. The student must petition and provide documentation that course repetition is legally mandated.

Significant Change in Industry

Student must petition and provide documents that there has been a significant change in industry or licensure standards necessitating course repetition.

X. Apportionment for Course Enrollment

The College District may claim state apportionment for the attendance of students for enrollments in credit courses designated as repeatable and courses that are related in content for no more than four times for semester courses. This limitation applies even if a student receives a substandard grade or "W" during one or more of the enrollments in such a course.

The College District may claim state apportionment for one additional enrollment if all other requirements are met and only in the following circumstances:

1. Attendance of a student for an enrollment in a credit course resulting in that student's repetition of the credit course because there has been a significant lapse of time no less than 36 months since the student previously successfully completed the course, unless an exception to the 36 month requirements applies.

2. Attendance of a student for an enrollment in a credit course which is a repetition of the credit course is due to extenuating circumstances, if such credit course is not designated as repeatable, according to this procedure.

3. Attendance of students in credit courses for enrollments in the credit courses without limitation if all other requirements are met and in the following circumstances:

- a. Attendance of a student in legally mandated training regardless of whether substandard academic work has been recorded. Courses may be repeated for credit any number of times.

This enrollment limitation applies even if the student receives a substandard grade or "W" during one or more of the enrollments in such a course or petitions for repetition due to special circumstances.

financial obligation shall include, but is not limited to: student fees; obligations incurred through the use of facilities, equipment or materials; library fines; unreturned library books; materials remaining improperly in the possession of the student; and/or any other unpaid obligation a student or former student owes to the College District. A proper financial obligation does not include any unpaid obligation to a student

organization. The Dean of Student Services, upon proper notification and justification by administrators in charge of student discipline, may withhold student records, registration, and/or counseling privileges for students who are under suspension, academic or progress probation, or are in violation of any disciplinary contract.

STEP 5: SUBMIT TRANSCRIPTS FROM OTHER COLLEGES ATTENDED

TRANSCRIPTS FROM OTHER INSTITUTIONS

A transcript is a record of coursework completed at a school (i.e., high schools, colleges, and universities). Students who have attended other regionally accredited colleges or universities should provide official transcripts from those institutions.

Note: Official transcripts must be sent directly from other schools, colleges, and universities to the Southwestern College Admissions Office. Hand-carried copies will not be accepted.

Once the Southwestern College Admissions Office has received your transcripts from another college or university, an email

notice will be sent to you. If you would like Southwestern College to apply college credit you have earned at another college or university towards your current educational goals, your transcripts will need to be officially evaluated by the Evaluations Office. You should submit a request to have transcripts evaluated through the Evaluations Office located on the first floor of the Cesar E. Chavez Student Services Center.

STEP 6: PLANNING YOUR EDUCATION AND EXPLORING CAREER PATHWAYS

THE COUNSELING CENTER

The Counseling Center schedules appointments on a weekly and daily basis. After you have registered for classes, stop by the Counseling Center at all locations to schedule an individual appointment with a college counselor starting the third week of the semester. Before that, counselors are available for students through orientation sessions, walk-in services, and online at Counseling and Guidance link, E-Counselor.

Before you are scheduled for a counseling appointment, you will be asked to complete the Student Services Needs Assessment process. Here you will be asked a series of questions that will help Southwestern College provide you with targeted assistance. Take care to answer all of the questions on the Self-Assessment. Within a few days of filing this form, you will receive an email letter from a college counselor directing you to your next steps for success. You may be asked to attend a workshop to learn more about careers and educational goals.

Once you have completed your steps for success, you will be scheduled for an individual counseling appointment.

COUNSELING APPOINTMENTS

During your individual appointment, counselors will assist you in developing a Student Educational Plan, exploring career options, and discussing personal issues and challenges you may encounter. All students are recommended to meet with counselors at least once per academic year to keep informed of program and general education changes, and to ensure timely completion of goals. Be sure to come to your appointment well-prepared:

- Have a list of questions ready for your counselor
- Arrive on time for your appointment
- Have paper and pencil ready to take notes during your appointment.

This is a very important step in planning your future college and career success.

Additional Student Services are located at most Center locations and at the Cesar E. Chavez Student Services Building at the Chula Vista campus.

ONLINE STUDENT EDUCATIONAL PLANNING

Southwestern College is proud to offer an online opportunity for student planning. Students can access the new Self-Service Student Planning Module online. Visit the College website, www.swccd.edu, WebAdvisor for more information.

You can plan your college education online, electronically send your educational plan to a college counselor for review, and receive an approval or a recommendation from a college counselor online. The module allows you to access suggested sample plans, select courses based on your Southwestern College Assessment results, and link to WebAdvisor Registration once you have planned your semester successfully. You can even access your plan by a mobile smart phone.

Students can also save their plans and access later as goals change. Southwestern College recommends you revisit this site each semester to stay updated on any program requirement changes, and to continually plan your education with the assistance of a college counselor.

To access the online Student Planning module, visit WebAdvisor at the college website, www.swccd.edu. Under the Web Advisor menu, see Academic Planning and Introduction to Student Planning. These modules will provide you with detailed information and instruction on how to best utilize the online planning tool.

Students who have acquired college units from external colleges and universities, will need to submit official transcripts for formal evaluation prior to utilizing the online planning tool. Meanwhile, schedule an in-person counseling appointment to develop a Student Educational Plan with a College Counselor.

Students can also save their plans and access later as goals change. Southwestern College recommends you revisit this site each semester to stay updated on any program requirement changes, and to continually plan your education with the assistance of a college counselor.

CHOOSING A MAJOR OR COURSE OF STUDY

Many students enter college feeling doubts about choosing a career pathway. Most students will select a major based on fields they may have been exposed to; i.e. teaching professions, nursing and health fields, etc. These are great fields and many, many more exist.

Visit the Career Center to learn more about your options. The Career Center will provide you with an array of assessment tools you can utilize to help you determine your interests, personality traits, and career pathways that may be best suited for you. Once you have completed Career Assessments, you can be scheduled to meet with a Career Counselor to discuss options and develop a plan for success. The Career Center also provides many workshops designed to assist you in selecting your career pathway.

Visit the SWC Career Center online at the college website, www.sccd.edu, under the Student Services directory. A host of assessment tools, exploration tools, and relevant information is provided online.

Remember, SSSP requires non-exempt students to identify a college major/course of study by the time you have earned 15 college units, so take advantage of these great services.

ELIGIBILITY

Student eligibility for financial aid is dictated by federal and state regulations. Please see www.swccd.edu/financialaid for a complete list.

Concurrent Enrollment

Students are only eligible to receive financial aid at one college and/or university each enrollment period, with the exception of scholarships and Board of Governors Fee Waivers. Students attending more than one college and/or university at the same time should check with each institution regarding its rules about scholarship eligibility. If a student receives financial aid from more than one college or university during the same enrollment period, they may be ineligible to receive funds and may be required to pay back the money to at least one of the institutions, and may be assigned to the Department of Education for collections.

FINANCIAL AID PROGRAMS

FEDERAL PROGRAMS

- **Federal Pell Grants** are awarded to eligible undergraduate students. The amount of money awarded is based upon a student's Expected Family Contribution (EFC), the number of units enrolled, and the cost of attendance.
- **Federal Supplemental Educational Opportunity Grant (FSEOG)** is awarded to eligible undergraduate students with exceptional financial need. It is awarded on a "first-come, first-served" basis and is dependent upon funds available. Students must have a zero EFC and be enrolled in at least six units to receive funds, with Pell-eligible students receiving priority.
- **Federal Work-Study (FWS)** is a program with limited funding which provides employment to help pay for part of a student's educational costs. This program is based on financial need and, if awarded, is part of a student's award package. Students on FWS may work approximately 15 hours per week on or off campus. Students must submit a separate FWS application in addition to the FAFSA to apply for FWS.
- **William D. Ford Federal Direct Subsidized and Unsubsidized Loans** are funds that must be repaid. Students must first complete a FAFSA and, after a student has received a financial aid award letter, the student may apply for a student loan by completing a loan packet and submitting it to the Financial

Aid Office. Loan amounts follow federal guidelines and will be determined at the time the Financial Aid Office certifies a loan application. Both entrance and exit counseling are requirements and students must maintain at least half-time enrollment status to receive a loan. Once a student receives loan funds, the student must maintain reasonable progress toward their declared, eligible educational program. In reviewing a request for any loan, the Financial Aid Office may use "professional judgment" to deny a student a loan on a case-by-case basis.

STATE PROGRAMS

- **Board of Governors Fee Waiver (BOGFW)** is a program that provides assistance to cover community college enrollment fees. To be eligible, a student must be a California resident or verified AB540 student and must meet the requirements one of the following categories:
 - **BOGFW A:** Student or parent must currently be receiving Temporary Assistance for Needy Families (TANF), CalWORKs, Supplemental Security Income (SSI), State Supplemental Program (SSP), or General Assistance (GA). Documentation is required.
 - **BOGFW-B:** Student must meet income standards based on family size. Documentation may be required.
 - **BOGFW-C:** Student must have applied for FAFSA and demonstrate required level of financial need.
- **Cal Grants A, B & C** are state-funded, need-based, grants given to California college students and do not have to be repaid. Students must be California residents or verified AB540 student, enrolled at least half-time (6 units), have a high school diploma and meet federal aid requirements. Cal Grants B & C are the only CalGrant awards offered at SWC.

The deadline date for high school students to apply for entitlement grants and for university transfer students to apply for competitive grants is March 2. To apply, students must file a FAFSA and submit a GPA verification to CSAC by the deadline (SWC students who have completed 16 degree applicable units will have their GPA automatically calculated and submitted to CSAC). Community college students wishing to apply for a competitive grant also have a second filing deadline of September 2 each year.

SCHOLARSHIPS

A scholarship is aid that does not have to be repaid. The Financial Aid Office oversees the scholarship program and is the steward of a number of scholarships that may or may not require that the student demonstrate financial need. The online application, as well as additional information on scholarships and scholarship eligibility, can be found at www.swccd.edu/scholarships.

DISBURSEMENTS

Financial aid disbursements are made on a monthly basis by the Finance Office. Students awarded financial aid will receive a SWC Access Card, which will enable them to register their refund preference from the following options:

- ACH, in which a direct electronic deposit is made to a student's existing bank account;
- Paper check, which is mailed directly to the student; or
- Refund directly to the SWC Access Card

There are no charges to students for the disbursement of financial aid and students may change their refund preference at any time and as many times as they wish.

Financial Aid funds will first reduce any debts owed to SWC and the remaining balance will go to students by the disbursement method chosen by the student. The first disbursement of Pell grant each semester will be 30% of that term's eligibility and the balance (70%) will be disbursed in the third payment of the semester. Students awarded after the third disbursement will receive 100% of that term's eligibility.

WITHDRAWAL FROM COURSES AND RETURN OF TITLE IV FUNDS

Federal Financial Aid funds are awarded under the assumption that students will attend school for the entire payment period or period of enrollment for which the aid was awarded and will complete all the units on which their award was calculated. Students who withdraw from all classes will have the amount of Title IV Federal Financial Aid that was earned and are entitled to keep determined by a mandated federal formula.

SATISFACTORY ACADEMIC PROGRESS (SAP) STANDARDS

Federal and state financial aid regulations require Southwestern College to establish, define, and apply Satisfactory Academic Progress standards for all financial aid applicants. The regulations require that SAP be evaluated every academic year, and measure both the qualitative standard (cumulative GPA) and quantitative standards (completion rate, Pace) and (Maximum Time Frame). Students enrolled in a program of less than two years (Certificate of Achievement) are reviewed for SAP after the end of every semester. All periods of enrollment at Southwestern College and applicable transferable units from other colleges will be included as part of the SAP review.

- **Grade Point Average (GPA) Requirement (Qualitative)**

Students are required to maintain a minimum cumulative GPA of 2.0 or better.

- **Unit Completion Rate – Pace of Progress (Quantitative)**

Students are required to complete a minimum of 67% of the units in which they have enrolled. The cumulative units completed will be divided by the cumulative units attempted to calculate the pace of progress. All units are considered in this calculation. Units for which a grade of W, I, NP and/or F was received are considered as units attempted but not completed.

- **Maximum Time Frame (Quantitative)**

Students must complete their academic program within a maximum time frame of 150% of the published program's required units. For example, associate in arts, associate in science and transfer degrees generally require 60 units to complete, so 150% of these programs would be 90 units. However, not all academic programs are 60 units in length, such as Certificate of Achievements and specialized technical programs so the maximum time limit is calculated specifically for each individual academic program.

- Repeated courses will count toward the 150% maximum units allowed.
- The maximum time frame will not be extended for students who change academic programs or have prior degrees or certificates.
- Students who have a bachelor's degree or higher from a domestic or foreign school have exceeded the maximum time frame and

will not be eligible for additional financial aid.

- A maximum of 30 units of Basic Skills/Remedial courses and/or 30 units of ESL courses will be excluded from the maximum unit limit.

CAMPUS SEXUAL VIOLENCE ELIMINATION (SAVE) ACT

The Campus Sexual Violence Elimination Act, or Campus SaVE Act (SaVE), is a 2013 amendment to the federal Jeanne Clery Act. SaVE was designed by advocates along with victims/survivors and championed by a bipartisan coalition in Congress as a companion to Title IX that will help bolster the response to and prevention of sexual violence in higher education. STUDENT LIFE

Students will find that the college experience is enhanced by active participation in some social or extracurricular activities. The College encourages each student to participate in extracurricular activities. Approval by the administration must be obtained before such events are scheduled or placed on the calendar.

Opportunities are provided to participate in the following: student government; production of campus publications such as the campus newspaper; intercollegiate athletics; band, drama, and choral music performances; a variety of club programs; and social, service, cultural, and recreational activities and events.

Time is designated as college hours. Few classes are scheduled during these hours, allowing for campus activities such as cultural activities, club meetings, and current affairs forums.

Students should plan to participate in at least one social organization or activity with a goal to further develop social skills. A variety of chartered groups are organized on campus for the welfare and extracurricular interests of the general student body. During the school year, the Interclub Council awards charters to clubs according to the following four categories established in the ASO Constitution:

ACADEMIC REGULATIONS

COURSE CLASSIFICATION COURSES AND CREDIT

A course is a planned study in a distinct subject area of a department. Each course has educational objectives which must be achieved in order to receive a final passing grade and to be awarded specified units. Each course has methods of evaluation to determine if the student has met the educational objectives, including written and oral assignments, problem-solving exercises, class and/or lab activities, quizzes, and examinations. Each course employs teaching techniques which can include lecture, individual student assistance, demonstrations, and discussions. All credit courses require a minimum of three hours of work per unit including class time per week.

COURSE IDENTIFICATION NUMBERING SYSTEM (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example SOC 101, students at that college can be assured that it will be accepted in lieu of a course bearing the C-ID SOC 101 designation at another community college. In other words, the C-ID designation can be used to identify comparable courses at different community colleges. However, students should always go to **www.assist.org** to confirm how each college's course will be accepted at a particular four-year college or university for transfer credit.

The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Because these course requirements may change and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.

Students may consult the ASSIST database at **www.assist.org** for specific information on C-ID course designations. Counselors can always help students interpret or explain this information.

CAREER AND TECHNICAL COURSES

Career/technical courses are designed to provide education and experiences that give the student competency in the specific content of the course. The courses have been developed with the help of advisory committees representing business and industries reflective of the course content and program of study. In some cases career/technical courses may be transferable to other colleges and universities. The student should consult a counselor regarding the status of all career/technical course transfers.

A degree or certificate is awarded to students who have completed a selected sequence of courses leading toward a career/technical objective. Courses can be either required or elective with the units applied to fulfillment of the major.

DEVELOPMENTAL EDUCATION, ACADEMIC SKILLS COURSES

Special courses in English, mathematics, reading, and study skills are designed to assist students in developing the basic skills needed to successfully pursue educational or vocational goals. The student should consult a counselor about assessment and appropriate placement.

EXPERIMENTAL COURSES

An experimental course is offered with the intent to eventually make it part of the regular curriculum. Each experimental course is designated with the number 295 and may be followed by a letter.

INDEPENDENT STUDY COURSES

Independent study is neither a substitute for any course listed in the catalog nor a substitute for other requirements in the curriculum. It is individual study or research in an area of a department of particular interest to the student and not included in regular course offerings of the College (Policy No. 6019).

Independent Study courses are listed in the Course Description section of the catalog with the designation number 299. A petition to take an independent study course must be approved by both the instructor and the school dean, and it must be filed in Admissions during the first three weeks of the semester or the first week of summer session. See page 48 for additional eligibility requirements information.

ONLINE COURSES

Online learning is defined as any teaching-learning environment where the student and the teacher are not located in the same place. Technology is used to bridge the learning space. Online learning provides an opportunity for greater diversity in the means of instruction and in the delivery of educational and training services. It also lends itself to addressing a wide variety of learning styles.

To determine if online learning is right for you, review the following statements:

- I am very comfortable with using my computer for email, Internet, and word processing.
- I have access to a computer most of the time.

- I have Internet access at a fast speed.
- I have very strong time management and organization skills.
- I have very strong study skills.

If you agree with all five statements, online courses may be for you!

Online Courses:

- are academically equivalent to traditional on-campus courses.
- allow students to fit work and school into their busy schedules.
- offer the flexibility to choose where, when, and how often students complete lessons at home.
- save time and expense of traveling to campus.

TYPES OF ONLINE COURSES

HYBRID

These courses feature a combination of online and face-to-face (F2F) format utilizing a course management system (CMS), such as Blackboard (Bb) to post assignments, documents and or discussion board activities. Hybrid classes meet on campus at least half of their class meetings, with remaining class work conducted via the internet. There may be F2F orientation meetings and periodic F2F testing. To access the class, regular access to a computer with a reliable and fast internet connection, and a Web browser software such as Mozilla Firefox or Microsoft Explorer is required. You will need access to an Internet service provider.

ONLINE

These courses are taught 100% online either synchronously or asynchronously through use of technology on a CMS, such as Blackboard. All assignments are given and completed through email, postings, or voicemail. Exams and orientation may be given F2F in a classroom or at an approved testing center with supervision; however, 100% of instruction is online. The instructor provides student assistance and maintains appropriate student contact through F2F meetings, email, Bb postings, or voicemail, as necessary. The same level of technology as used with Hybrid classes is required.

Note: For hybrid and entirely online courses, students must have access to a computer with reliable Internet connection and a valid email address.

WEB-ENHANCED

These courses have traditional, face-to-face meetings; however, at the discretion of the instructor, some or all of the course content may be available on the Internet.

Online Course Orientations

Students may be asked by their instructors to participate in an orientation. The following options include but are not limited to what students may be asked to do:

Option 1:

The following link will allow students to complete an interactive online orientation: <http://www.swccd.edu/~olss/Media/Students%20Starter%20PacketC.camrec/Student%20Starter%20PacketC.camrec.html>.

Option 2:

Attend an optional on-campus orientation, if scheduled by the individual instructor. <http://swccd.edu/~olss/OnlineOrientations.htm>.

Option 3:

Read the Student Orientation Packet on the Student Information section of the Online Learning pages. <http://swccd.edu/~olss> or call toll free 1-866-556-6718.

TRANSFER COURSES

Southwestern is a regionally-accredited college with courses appropriately designated for transfer and/or baccalaureate credit. Southwestern College courses are generally accepted throughout the nation by other colleges and universities. However, acceptance of a Southwestern College course is ultimately determined by the receiving institution. In addition, there may be a limit to the number of units a college or university may allow from a community college. Career/technical and developmental courses, in most cases, do not transfer to other colleges or universities.

The following are examples by which a community college course may transfer:

- As meeting a lower-division major requirement at the intended transfer college or university. To be accepted for this purpose, the course usually corresponds exactly to the comparable course at the transfer institution in content, prerequisite, and unit.
- For meeting general education requirements, the student should review the general education patterns for the college or university to which he/she intends to transfer. A list of the transferable general

education courses for the California State University (CSU/IGETC) and the University of California (IGETC) systems are provided beginning on page 69. All students should consult with a counselor for assistance in selecting the appropriate general education course pattern.

- As elective credit. Elective credit may be applied to the total unit requirement for the bachelor's or higher degree. The receiving institution reserves the right to determine the extent to which transfer credit satisfies the specific and elective requirements of degree programs.

Courses not accepted to meet specific subject requirements are usually the result of one of the following occurrences:

- The units have exceeded the maximum amount of community college units allowed by the transfer institution.
- The corresponding course at the transfer institution is designated as upper-division.
- The course is a prerequisite for a course in the student's major, which is normally completed in high school.

Many online courses are transferable to four-year colleges and universities. However students are advised to consult a counselor regarding some transfer institutions policies and restrictions for online coursework.

ALTERNATIVE COURSE CREDIT

AUDITING/NOT FOR CREDIT

The Governing Board of the Southwestern Community College District, under the provisions of Chapter 5, Section 76370.3 of the Education Code, hereby authorizes individuals to audit regularly scheduled credit courses, subject to the following conditions and stipulations:

- A person must meet college eligibility requirements for admission to audit courses.
- A (\$15) fee per unit per semester shall be charged for each class audited. Students enrolled in classes to receive credit for 10 or more units shall not be charged a fee to audit three or fewer semester units per semester. Additionally, the mandatory health fee and course fees must be paid.

COOPERATIVE WORK EXPERIENCE EDUCATION (CWEE)

Cooperative Work Experience Education (CWEE) allows students with declared majors to earn up to 16 units of college credit by engaging in an internship program (either paid or unpaid) related to their major. CWEE uses the entire community as the laboratory, allowing students to apply theoretical information learned in the classroom to a practical environment. It enables students to compare their career goals and expectations with specific career requirements and to learn from professional and technical experts working in their career field (Policy No. 5160).

Title 5 Regulations establish the basis of eligibility for work experience. To be eligible for CWEE, you must:

- Have concurrent enrollment in one other major-related course and have successfully completed one to two major-related courses to qualify for a CWEE class for fall and spring semesters, or summer session.
- Have a declared major.
- Work in either a paid or unpaid position related to your major.
- Develop job performance objectives each semester of participation.
- Enroll in the class during the regular college registration period.

Section 55254 of the Title 5 Regulations further requires that you meet the following criteria for CWEE:

- Your planned program of CWEE must, in the opinion of your departmental instructor/agency representative, include new or expanded responsibilities or learning opportunities beyond those experienced during previous employment/internship.
- Your CWEE program must have on-the-job learning experiences that contribute to your occupational or education goals.
- Your CWEE experience must have the approval of your instructor/agency representative.
- If you are self-employed, you must identify a person who is approved by your instructor/CWEE coordinator to serve as the designated employer representative. This person must agree in writing to accept responsibility for assisting you to identify new or expanded on-the-job learning objectives, for assisting in the evaluation of these objectives, and for validating the hours you worked.

CWEE requires a minimum of 60 hours of work experience (75 hours if paid) per each unit earned. Students can enroll in up to four (4) units each semester for a total of 16 elective units overall. For further information or enrollment procedures, contact the CWEE office located upstairs in the Cesar E. Chavez Student Services Building, office S205H, or phone 619-482-6537.

Auditing Cooperative Work Experience Education (CWEE)

Students may audit the CWEE courses after completing the 16-unit level. Students interested in further information about Work Experience should contact the CWEE office located upstairs in the Cesar E. Chavez Student Services Building, office S205H, or phone 619-482-6537.

COURSE EQUIVALENCY

Southwestern College grants credit for college units earned at any regionally accredited postsecondary institution (e.g., Western Association of Schools and Colleges) other than coursework identified by such institutions as non-degree level coursework. Southwestern College will honor articulation agreements made with other postsecondary institutions (Policy No. 6027).

Coursework deemed to be equivalent in scope and content to coursework taught at Southwestern College is determined by the Evaluations Office in consultation with the appropriate dean and/or faculty. Credits transferred from institutions on the quarter system will be converted to semester credits by multiplying quarter-unit totals by two-thirds. All credit summaries will be completed upon a student's petitioning for graduation or through consultation with a counselor. In the areas of mathematics and foreign language, credit will not be granted for a lower-level course completed after the higher-level course.

Students who wish to receive credit toward degrees at Southwestern College for coursework taken at an accredited foreign institution must have their foreign transcripts evaluated by a foreign transcript evaluation service, preferably the International Education Research Foundation (IERF). The following items should be noted:

- Courses cannot be used to satisfy the general education breadth or IGETC requirements.
- Credit cannot be awarded for English or speech courses.

CREDIT BY EXAMINATION

A student may obtain credit by examination for graded courses at Southwestern College. Credit by examination for courses identified in the high school district articulation agreements is included under this policy.

The school approving the credit by examination shall determine the type of examination to evaluate comprehension or knowledge and the condition for its administration.

Credit by examination is restricted and excludes physical education activity courses. Credit by examination will be provided for all courses that are not exempt. A list of courses exempt from credit by examination is found in the Instructional Support Services Office, the appropriate school office, and Admissions and Records. Petitions are available in Admissions at the Chula Vista Campus, the Higher Education Centers at National City, Otay Mesa, or San Ysidro, or online at www.swccd.edu (click on Admissions then click on printable forms) (Policy No. 6077).

- Be currently enrolled in at least one other graded course.
- Be in good academic standing (minimum 2.0 GPA) and maintain a non-probationary status at Southwestern College.

The student will receive a grade of Pass (P) or No Pass (NP) [formerly Credit (CR) or No Credit (NC)] for the course at the end of the semester. The transcript will be annotated to indicate that the course was by examination.

Credits obtained by examination are not accepted for meeting the unit load enrollment requirement for VA, Social Security benefits, financial aid, cooperative education, or for satisfying graduation residency requirements.

A student must complete all of the following steps:

- Complete and file a petition with Admissions prior to the end of the sixth week of the semester or the second week of the summer session.
- Return to Admissions in two days to pick up the petition.

All CSU campuses will accept the minimum units shown if the examination is included in full or subject area certification; individual CSU campuses may choose to accept more than those specified towards completion of general education breadth requirements. The CSU Minimum Semester Admission unit column reflects what each campus system wide will minimally accept toward CSU Admission.

+These exams only partially fulfill the CSU U.S. History, Constitution and American Ideals graduation requirement but can be used toward the requirement.

****UC Advanced Placement Policies**

Each AP exam may be applied to one IGETC area, as satisfying one course requirement, with the exception of Language Other Than English. The final column reflects what the University of California will award per AP exam for admission to any UC campus.

GRADING SYSTEM, ACADEMIC PROGRESS, PROBATION, AND DISQUALIFICATION

GRADING SYSTEM

The grade assigned to each student in a course directly reflects the student's achievement of a specific set of objectives. A student entering a course assumes the responsibility to master the objectives of the course to the best of his/her ability. The final grade is a reflection of how well the student has mastered the course objectives.

Grades are assigned in each course, recorded on the student's permanent record, and affect the student's future; therefore, it is important that careful consideration be given to the grades assigned by the instructors (Policy No. 6023).

The two types of grading systems used at Southwestern College are the grading scale and the Pass/No Pass evaluation. The grading scale consists of the letters A, B, C, D, and F. In specific courses indicated in the college catalog, students may elect to be graded on a Pass/No Pass basis. A student transferring to a four-year institution should check its policy on acceptance of Pass/No Pass grades.

GRADE POINT AVERAGE

The overall level of academic success is measured in terms of a student's grade point average (GPA). To determine the student's GPA, the total number of grade points accumulated is divided by the total number of units attempted.

The grade point average is used in determining eligibility for academic achievement such as the President's and Vice President's lists, academic probation and disqualification, eligibility for an associate degree, certificate of completion, graduation with honors, and some scholarships. Students are encouraged to consistently monitor their grade point standing.

GRADE ASSIGNMENT, GRADE CHANGE, AND DISPUTES

Final grades will be available at the end of each fall and spring semester and summer session. The instructor of the course shall determine the grade given to each student in the absence of mistake, fraud, incompetence, or bad faith (Policy No. 5530).

Only the instructor who teaches a class has the authority to issue grades to students enrolled in that class or to change grades that have already been issued. A student who wishes to request a grade change may take the following steps:

- First, contact the instructor;
- If there were mistakes in reporting the grade, the instructor will institute a record change through the Admissions Office;
- If the request for a grade change is denied by the instructor, the student may ask for a review of the grade by the appropriate school dean.

Any change to a grade after it has been submitted to the Admissions Office must be done within one year following the end of the term in which the grade was assigned (see "Student Grade Dispute Procedures," page 98).

ACADEMIC RECORD SYMBOLS

Grades are earned for each course in which a student is officially enrolled and are recorded on the student's permanent record at the end of each fall and spring semester or summer session (Policy No. 6025).

Academic achievement is reported in terms of grade point average. Grades and grade point averages should be interpreted as follows:

GRADING SCALE

SYMBOL	DEFINITION	GRADE POINT
A	Excellent	4
B	Good	3
C	Satisfactory	2
D	Less than satisfactory	1
F	Failing	0

PASS/NO PASS GRADES (FORMERLY CREDIT/NO CREDIT)

P (CR)	Pass/Credit (at least satisfactory; units are awarded but are not computed in GPA)
NP (NC)	No Pass/No Credit (less than satisfactory or failing; no units are awarded nor computed in GPA)

Pass/No Pass grades are used in two ways:

- Some courses are offered on a Pass/No Pass grading basis only.
- Other courses have a Pass/No Pass grading option available.

Courses in which only Pass/No Pass grades are available are identified in this catalog by the statement: Pass/No Pass only.

In courses where Pass/No Pass grades are used, credit is assigned for student achievement at the "C" grade level or above.

Students may take courses during a semester, fast track, or summer session on a Pass/No Pass basis whenever that option is offered. Students who desire to be evaluated on this basis must request this option during the first 30 percent (end of the fourth week) of the semester, or the first week of a short session or summer session. Pass/No Pass petitions are available in Admissions at the Chula Vista campus, Higher Education Centers at National City, Otay Mesa, or San Ysidro, or online at www.swccd.edu (click on Admissions then on Printable Forms).

An evaluation on a Pass/No Pass basis may not be changed later to a letter grade. Pass/No Pass grades cannot be used for removal of an unsatisfactory grade (D or F).

All units earned on a Pass/No Pass basis in California institutions of higher education or equivalent out-of-state institutions shall be counted in satisfaction of college curriculum requirements. However, such courses shall be disregarded in determining a student's grade point average for all purposes for which a grade point average is required. Units attempted for which "NP" is recorded shall be considered in probation and dismissal procedures.

Note: A student interested in transferring to a four-year institution should check the institution's policy on acceptance of Pass/No Pass grades.

NON-EVALUATIVE SYMBOLS

I	Incomplete
IP	In Progress
W	Withdrawal
MW	Military Withdrawal
RD	Report Delayed

REPORT DELAYED GRADE (RD)

The report delayed "RD" is a temporary notation on the transcript in those circumstances when an instructor does not assign a grade. The "RD" is removed when the grade is reported.

GRADES:

FINAL EXAMINATION

Final examinations are held in all subjects according to schedule. No examination exceeds two hours in length. No student will be excused from the final examination. Should circumstances develop requiring a special examination at a time other than that scheduled, special authorization must be secured from the instructor and School Dean. (Policy No. 7013).

GRADES: PRESIDENT'S AND VICE PRESIDENT'S LISTS

Each semester Southwestern College recognizes outstanding academic achievement of students who have completed at least 12 or more units with grades demonstrating an excellent scholastic record (Pass/No Pass courses are not included). The grade point average (GPA) required for academic recognition is defined as follows (Policy No. 6069):

President's List:

4.0 GPA

Vice President's List:

3.50 to 3.99 GPA

MAINTAINING GOOD ACADEMIC PROGRESS, PROBATION, AND DISQUALIFICATION

The District's Probation and Disqualification – Academic and Progress Policy No. 6035 sets the standards for implementation.

PROBATION

Probation is a system of monitoring student progress in order to:

1. Identify students who are experiencing difficulty in making satisfactory progress toward an appropriate educational objective; and,
2. Encourage those students to reassess their educational objectives and the means required to achieve it.

Following are the two types of probation:

ACADEMIC PROBATION

1. A student who has attempted twelve (12) units or more at Southwestern College shall be placed on Academic Probation when his/her cumulative grade point average (GPA) at Southwestern College falls below 2.0. All students placed on Academic Probation will be required to attend

an Academic Success Seminar prior to registering for subsequent semesters. Contact the Counseling Center at the Chula Vista campus for more details at 619-482-6317.

PROGRESS PROBATION

2. A student who has attempted twelve (12) units or more at Southwestern College shall be placed on Progress Probation when his/her total units at Southwestern College include (40%) or more of "W", "I", or "NP" grades. All students placed on Progress Probation will be required to attend an Academic Success Seminar prior to registering for subsequent semesters. Contact the Counseling Center at the Chula Vista campus for more details at 619-482-6317.

REMOVAL FROM ACADEMIC PROBATION

A student is removed from Academic Probation status when his/her total grade point average at Southwestern College is 2.0 or above.

REMOVAL FROM PROGRESS PROBATION

A student is removed from Progress Probation status when his/her total units of "W", "I", or "NP" at Southwestern College are less than (40%) of the total units attempted.

DISMISSAL

ACADEMIC DISMISSAL

A student who is on academic probation shall be subject to dismissal if (a) the student has earned a cumulative grade point average of less than 2.0 in all units attempted or (b) in the two most recent consecutive semesters. A student whose semester Grade Point Average equals or exceeds 2.0, but whose overall Grade Point Average remains below 2.0, shall remain on Academic Probation.

PROGRESS DISMISSAL

A student on progress probation who does not complete 60% of units with passing grades of "A," "B," "C," "D," or "Cr/P" in the subsequent semester will be subject to dismissal. Students seeking readmission after dismissal shall follow Procedure 4255.

REINSTATEMENT AFTER DISMISSAL

A student who is disqualified (academically or for progress) is eligible to return after two (2) semesters of absence. Students who are disqualified lose their continuing student status and must reapply to the College and submit a letter to the Dean addressing improvement strategies.

PETITIONS FOR REINSTATEMENTS

A student who is disqualified may petition the Probation and Disqualification Committee requesting reconsideration and reinstatement. Petitions may be approved because of extenuating circumstances such

as verified cases of accidents, illness, or other circumstances beyond the control of the student. Students who are reinstated remain on probationary status and are subject to disqualification if their GPA remains below 2.0 or their total units completed remain below (40%).

Petitions are available in the Counseling Center at all locations and may be submitted prior to the beginning of the semester.

ACADEMIC RENEWAL

A student may petition to have their academic record reviewed for academic renewal of substandard academic performance (grades D or F) under the following conditions:

At least one year must have elapsed since the most recent coursework to be disregarded was completed.

The student must have completed, at any accredited post-secondary institution:

- a. 12 units with at least a 2.5 GPA, or
- b. 18 units with at least a 2.0 GPA.

Substandard coursework completed at Southwestern College may be eliminated from consideration in the computation of cumulative grade point average as follows:

- A maximum of 30 units may be eliminated.

Courses used to fulfill the requirements of previously earned degrees are not eligible for academic renewal.

When academic renewal procedures permit previously recorded substandard coursework to be disregarded in the computation of a student's grade point average, the student's permanent academic record shall be annotated in such a manner that all coursework remains legible to ensure a complete academic history.

A student may be granted academic renewal only once at Southwestern College, and academic renewal decisions are irreversible and permanent.

Academic renewal procedures may not conflict with the District's obligation to retain and destroy records or with the instructor's ability to determine a student's final grade.

Petitions to request academic renewal shall be available in the Admissions and Records Office. Official transcripts of all academic work, from all accredited post-secondary institutions, must be on file in the Admissions and Records Office at the time of request for Academic Renewal.

Petitions will be reviewed by Southwestern College's Petition Review Committee. This petition has no bearing on the District's Course Repetition/Withdrawal procedure.

CERTIFICATES AND CERTIFICATIONS, DEGREES AND CSU/UC REQUIREMENTS

CERTIFICATES

COURSE CERTIFICATE

A course certificate verifying the satisfactory completion of a course will be issued upon request to any student who completes a course with a grade of "C" or better. A student who desires such a certificate should submit an application to the instructor during the last four weeks of the semester.

CERTIFICATE OF ACHIEVEMENT

Certificates of Achievement require 18 or more units in an approved program. Certificates of Achievement are designed to convey evidence that defined levels of proficiency have been attained in career or technical areas. Certificates of Achievement are available in most of the majors for which the College offers the associate degree. Students select a certificate of achievement area with specified course requirements from the Program of Study section of the catalog.

To qualify for a Certificate of Achievement, a student must do all of the following:

- Complete all courses listed for a particular certificate;
- Achieve a grade of "C" or better in all courses required for that specific certificate;
- Achieve a grade point average of "C" (2.0) for all courses attempted at Southwestern College that are required for that specific certificate;
- File a petition for Certificate of Achievement; and
- Satisfactorily complete at least one required course at Southwestern College in which the certificate is earned.

CERTIFICATE OF PROFICIENCY

Certificates of Proficiency are designed for the student who needs to be prepared to enter an entry-level job. Approved Certificate of Proficiency programs have less than 18 units. Certificates of Proficiency are not awarded automatically and it is the responsibility of the student to ensure satisfactory completion of the certificate requirements. When all requirements are completed or in-progress, students should submit a Online petition for Certificate of Proficiency form at www.swccd.edu/evaluations. These certificates will not be listed on a student's transcript. Certificates of Proficiency are not recognized at the Southwestern College commencement ceremony.

CERTIFICATE OF COMPLETION

Certificates of Completion are approved non-credit certificates.

GRADUATION CERTIFICATION

Students must submit an online Graduation Petition in order to be evaluated for graduation. They must meet the requirements to complete an associate degree in order to be eligible to receive a diploma.

POSTED DEGREES

The posting of an associate degree to a student's record is considered a permanent part of the student's academic record and cannot be rescinded, removed or modified.

DEFINITIONS

Continuous Enrollment: The completion of a course during at least one semester in a calendar year excluding summer session. Completing a course is defined as receiving a grade of A, B, C, D, F, I, Pass (P), or No Pass (NP). Receiving a grade of "W" will not satisfy the requirements for completing a course (Policy No. 6087).

Catalog Rights: When continuous enrollment is maintained, students may elect the general education and graduation requirements in effect at the time of entrance to Southwestern College, or any catalog year thereafter (Policy No. 6041).

Major: For a local degree the requirements for the major will be determined by either the catalog in effect during the semester in which the student declared or changed a major or any subsequent catalog provided the student maintains continuous enrollment. For an ADT the student must complete the courses identified for the ADT major.

SOUTHWESTERN COLLEGE GRADUATION REQUIREMENTS

Southwestern College provides lower-division educational programs of study that prepare students for transfer to senior institutions and/or career and technical programs that lead to employment or career advancement. Students identify a program of study in a Student Education Plan and upon completion of program requirements may petition to graduate with the certificate and/or degree.

The College believes that a comprehensive education introduces the student to the fundamentals of human experience and knowledge in the context of a global society. Such experience provides a common base of learning for all students and seeks to meet the needs of a student body diverse in social, cultural, and educational backgrounds. It also serves to develop creativity and critical thinking skills essential to the attainment of personal goals and to the ability of the individual to make a positive contribution to society.

PROFICIENCY REQUIREMENTS

Part of the calculation used in the Southwestern College Assessment process to determine satisfaction of the proficiency requirement is high school grade point average. A student, however, may petition to substitute the college grade point average for the high school grade point average. The student must have completed a minimum of 24 degree units at Southwestern College, have completed those units within the past seven years, and be in good standing with the College. The student must submit a student petition to the Assessment Center to be considered for this substitution.

Mathematics Proficiency—The Southwestern College mathematics proficiency requirement can be satisfied in any one of the following ways:

- Satisfactory completion (grade of "C" or better or "Pass") of Math 60 or higher-numbered mathematics course.
- Satisfactory completion (minimum of 3 semester units with a grade of "C" or better) of a transferable statistics course in any discipline (e.g. Psych/SOC 270 at Southwestern College). As appropriate consultation will occur with Southwestern College discipline faculty.

- Satisfactory performance on the Southwestern College Math Assessment; i.e., results that indicate eligibility for MATH 70 (Intermediate Algebra II), or a higher numbered mathematics course.

Reading Proficiency—The Southwestern College reading proficiency requirement is met by satisfactory performance on the Southwestern College Reading Assessment. The requirement may also be met by satisfactory completion (grade of "C" or better or "Pass") of RDG 158 or ADN 140 or ENGL 115 or ENGL 115H.

Writing Proficiency—The Southwestern College English Writing proficiency requirement satisfactory completion (grade of "C" or better or "Pass") in the following:

ADN 140	Reading and Composition for Nursing and Allied Health Occupations
ENGL 115	College Composition: Reading and Writing Analytically
ENGL 115H	Honors College Composition: Reading and Writing Analytically

Note: Proficiency requirements may also be met by satisfactory scores on specified Advanced Placement (AP), College-Level Examination Program (CLEP), or International Baccalaureate (IB) eExams.

A student who has received a college degree from an accredited U.S. institution will not be required to meet proficiency requirements for graduation.

GENERAL EDUCATION REQUIREMENTS

The purpose of general education is to enhance learning and to add breadth to the college experience in order to compliment the specialization in the major. The general education curriculum thus provides coherence to undergraduate education, affording the student the opportunity to develop an integrated overview of the diverse fields of human knowledge.

Per Title 5 55063, students must complete a minimum of 18 semester units of general education to satisfy the associate degree requirements.

Southwestern College is committed to providing general education encompassing Social and Behavioral Sciences, Natural Sciences, Humanities, and Language and Rationality which are consistent with the Title 5 areas for General Education.

General Educational Patterns—There are three General Education patterns available at Southwestern College. Each is based upon legal requirements and the educational philosophy of the college faculty.

A student may meet the general education requirements for an associate degree by completing one of the following general education patterns:

- Southwestern College Associate Degree General Education Requirements
- California State University (CSU) General Education Breadth Requirements
- Intersegmental General Education Transfer Curriculum (IGETC)

The Southwestern College **Associate Degree General Education Requirements** meets the minimum 18 unit Title 5 General Education requirement for an associate degree awarded by Southwestern College. A minimum of 60 total units should include general education courses, degree/program course requirements and elective courses to earn an associate degree.

The **California State University (CSU) General Education Breadth Requirements** is a 41-42 unit pattern designed for the student planning to transfer to the California State University (CSU) system. Southwestern College will certify coursework completed at another California community college or any institution that participates in certifying general education coursework to the CSU, including a CSU campus other than the one to which the student is transferring, only if the courses are on the approved CSU general education list at the college where they were completed. Such a course will be certified in the general education breadth area that is shown on the official certification list for the institution at which it was taken.

The **Intersegmental General Education Transfer Curriculum (IGETC)** is a 38 to 41 unit general education pattern which meets all lower-division general education requirements at most California State University (CSU) or University of California (UC) campuses. Completion of the IGETC is not a requirement for admission to a CSU or UC, nor will its completion guarantee admission to a CSU or UC campus. Each

course for this pattern must be completed with a grade of "C" or better.

ASSOCIATE DEGREE REQUIREMENTS

1. **Unit and Scholarship Requirement**—Students must satisfactorily complete 60 or more units of coursework which will satisfy all graduation requirements. This means either credit earned on a Pass/No Pass basis or cumulative grade point average of 2.0 or better for credit earned on a grading scale basis for all college coursework attempted and for all Southwestern College course work attempted.
2. **Coursework Requirements**—All coursework required for the major requires minimum grade of 'C' or better or a "P" if the course is taken on a "pass-no pass" basis.
3. **Residency Requirements**—The student must satisfactorily complete a minimum of 12 degree-applicable units to satisfy degree requirements at Southwestern College.
4. **Major Requirements**—Students must declare a major in order for a degree to be conferred. Majors are programs of 18 or more units of coursework selected from courses transferable to the California State University System. A student may be enrolled for one or more semesters without declaring a specific major. He/she may also change majors. The requirements for the major will be determined by the catalog in effect during the semester in which the student declared or changed the major or any subsequent catalog within periods of continuous enrollment. All major requirements must be completed using the same catalog.
5. **Associate Degree**—Completion of an associate degree is satisfied through successful completion of a minimum of 18 units of general education and at least 18 units in a major or area of emphasis. The overall units needed to satisfy an associate degree is 60 and all coursework must be approved through the college curriculum process and be printed in the college catalog.
6. **Associate Degree for Transfer (ADT)**—The California Community Colleges ADT to the California State University (CSU) as per the Student Transfer Achievement Reform (STAR) Act (SB 1440-Padilla) are designed to provide a clear pathway to a CSU major and baccalaureate degree. These may

include Associate in Arts (AA-T) or Associate in Science (AS-T) degrees. California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses.

Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units.

To view the most current list of Southwestern College Associate Degrees for Transfer and to find out which CSU campuses accept each degree, please go to www.sb1440.org. Current and prospective community college students are encouraged to meet with a counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

MULTIPLE DEGREES

Students who qualify may receive additional associate degrees provided the designated degree to be earned will represent a change in major from the degree or degrees previously earned. A student who has already earned a bachelor's or higher degree may qualify for an associate degree providing that the designated major is different from the bachelor's or higher degree.

For each additional degree, the student must complete all requirements for the new major with a minimum of 18 new units. The additional units must include a minimum of 12 units in the major. In addition, the student must meet all graduation requirements enforced at the time of declaration of a new major.

ADT Exemption: Students who have previously been awarded an Associate Degree and wish to receive an ADT will be exempt from the additional unit requirement of 18 new units and 12 units in the major. Students who wish to pursue a second ADT in a new major will also be exempt from the additional unit requirement of 18 units and 12 units in the major. Students must complete all required courses for the ADT and submit a graduation petition for the new degree. Upon approval, the additional ADT will be posted to the student's academic record.

ASSOCIATE DEGREE (A.S. OR A.A.) GENERAL EDUCATION REQUIREMENTS 2015–2016

This plan meets the minimum 22-unit general education requirement for an associate degree awarded by Southwestern College. A minimum of 60 total units should include general education courses, degree/program course requirements and elective courses are required to earn an associate degree. Students are strongly advised to see a counselor for assistance in developing an educational plan.

PREPARATION FOR TRANSFER

ARTICULATION

Articulation is the process of developing a formal (i.e., written) agreement for course transfer to colleges and universities throughout the state of California. It also can include out-of-state institutions as well. The Articulation Office is housed under the Office of Instructional Support Services at Southwestern College. The Office is responsible for the development and implementation of articulation agreements for the purpose of ensuring a smooth transfer process for students. Agreements can be accessed in the Counseling and Transfer Centers at the Chula Vista campus and the Higher Educational Centers in National City, Otay Mesa, and San Ysidro.

For the most recent information on course articulation for the University of California and California State Universities, please visit www.assist.org. This website is the official repository for course articulation. Please consult with a counselor regarding any questions or concerns.

TRANSFER OPTIONS

ASSOCIATE DEGREES FOR TRANSFER (ADT)

Associate Degree for Transfer
A Degree with a Guarantee.SM

California Community Colleges are now offering associate degrees for transfer to the CSU. These may include Associate in Arts (AA-T) or Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree. California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses.

Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units.

To view the most current list of Southwestern College Associate Degrees for Transfer and to find out which CSU campuses accept each degree, please go to www.sb1440.org. Current and prospective community college students are encouraged to meet with a counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

ASSOCIATE IN ARTS DEGREE—TRANSFER

A degree program consisting of a minimum of 18 units in the major typically from the fields of humanities, fine and communication arts, social and behavioral sciences, and related fields. Some programs may mirror the lower-division requirements for a bachelor's degree in the same department. Others may lead to entry-level skills in the chosen field.

ASSOCIATE IN SCIENCE DEGREE—TRANSFER

A degree program consisting of a minimum of 18 units in the major typically from the fields of engineering, physical and biological sciences, and other occupational curricula. Some programs may mirror the lower-division requirements for a bachelor's degree in the same department. Others may lead to entry-level skills in the chosen field.

TRANSFER STUDIES/GENERAL STUDIES MAJORS

Effective with the 2008-09 Catalog, we are not offering an associate degree in General Studies or in Transfer Studies. These programs are not approved by the Chancellor's Office. Any student who is following a previous catalog to attain a degree in either of the two and has maintained continuous enrollment, will be granted their degree if all requirements are met.

CALIFORNIA STATE UNIVERSITIES

CALIFORNIA STATE UNIVERSITY (CSU) GENERAL EDUCATION BREADTH REQUIREMENTS 2015–2016 (TRANSFER INFORMATION)

This plan is a 41–42 unit pattern designed for the student planning to transfer to the California State University system. Southwestern College will certify course work completed at another California community college or any institution that participates in certifying general education course work to the CSU, including a CSU campus other than the one to which the student is transferring, only if the courses are on the approved CSU general education list at the college where they were completed. Such a course will be certified in the general education breadth area that is shown on the official certification list for the institution at which it was taken.

When course work has been taken at a regionally accredited institution that does not maintain a CSU certification list, Southwestern College can certify the course work provided that Southwestern College faculty determine that the course work is equivalent to course work on the approved Southwestern College general education breadth list. Any category of required general education courses not completed at the time of certification will have to be fulfilled according to the requirement of the transfer institution. Students who desire to transfer to one of the 23 California State University (CSU) campuses must complete 48 units of general education breadth courses, of which nine shall be at the upper-division level. Southwestern College can certify only the 39 lower-division units of general education breadth courses.

UNIVERSITIES OF CALIFORNIA

INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC) 2015–2016

UNIVERSITY OF CALIFORNIA (UC) AND CALIFORNIA STATE UNIVERSITY (CSU) REQUIREMENTS

This plan is a 38–41 unit, general education pattern which meets all lower-division general education requirements at most California State University (CSU) or University of California (UC) campuses. It should be noted that completion of the IGETC is not a requirement for admission to a CSU or UC, nor will its completion guarantee admission to a CSU or UC campus.

The IGETC plan is not the only way to fulfill lower-division general education requirements. Depending on a student's major or field of interest, the student may find it advantageous to fulfill the CSU's general education requirements or those of the UC campus or college to which the student plans to transfer. Some colleges within the UC system will not accept IGETC, depending on the major. Students wishing to use a course to meet General Education Breadth or IGETC requirements must be sure that the course is approved for the academic year in which it was taken. It is strongly recommended that the student consult with a counselor to determine which general education pattern is the most appropriate for him/her.

The course requirements for all areas must be completed before the IGETC can be certified. Each course must be completed with a grade of "C" or better.

An acceptable score on an English Advanced Placement (AP) exam may be used to meet the English composition requirement but may not be used to meet the Critical Thinking English composition requirement.

GENERAL DESCRIPTION

All ESL courses are designed for students whose native language is a language other than English or those who speak some English at home but feel they need to strengthen their English skills in order to prepare for entry into college academic or vocational programs and to interact effectively in their community.

Southwestern College offers the following programs and courses:

- Academic ESL Program (for students with academic goals)
- Everyday ESL courses (for students who want to use English around the community where they live, work or study)
- Spanish-to-English Program (specific ESL classes designed to support the Child Development Certificate Program)

CAREER OPTIONS

Today, there are many career choices for people who can communicate effectively in more than one language. The world is a global community where employment opportunities for educated individuals can span more than one continent, several countries, and many different cultures. Career options are available at entry-level through more advanced positions in business, industry, education, and government.

Consult with a counselor to develop a Student Education Plan (SEP), which lists the courses necessary to achieve your academic goal. Schedule an ESL Placement Assessment at the Southwestern College Assessment Office to learn about your placement options.

PROGRAMA ACADEMICO DE ESL

El programa académico de ESL está diseñado para preparar a los estudiantes para transferirse a programas académicos en Southwestern College. Las clases académicas de ESL se enfocan en las habilidades de lectura, escritura, comprensión oral, gramática y vocabulario académicos. Este programa incorpora temas y conceptos académicos de diversas disciplinas y hace énfasis en las habilidades académicas.

Por favor, tenga en cuenta: No es necesario realizar una Evaluación de Nivelación de ESL para el Primer Nivel del Programa Académico de ESL; el ingreso a los niveles más altos requiere una Evaluación de Nivelación de ESL, que determinará qué nivel del programa es el mejor para el estudiante.

GRADUATION

Southwestern College recognizes the educational achievement of its students by granting the Associate in Arts Degree, Associate in Science Degree, Certificate of Achievement, and Certificate of Proficiency. Associate degree programs allow the student the benefits of a general college education and the option of choosing occupational training, liberal arts, or a concentration in a department offered by the College.

PETITION FOR GRADUATION

Students are encouraged to plan their educational objectives in such a manner as to qualify for graduation with an associate degree. Degrees or certificates are not awarded automatically upon completion of the requirements. A candidate must submit a petition for graduation online at www.swccd.edu/evaluations. Petitions for graduation may be filed at any time; however, students wishing to graduate in a specified semester (fall, spring, or summer) must submit a petition according to the following schedule:

Fall	July 1–October 31
Spring	November 1–February 28
Summer	March 1–June 30

Official college transcripts from all colleges attended must be on file before submitting a petition for any Associate Degree, Certificate of Achievement or GE Certification. Hand carried copies of transcripts will not be accepted. All previous coursework must be evaluated whether or not it is needed to obtain the associate degree at Southwestern College.

CATALOG RIGHTS FOR GENERAL EDUCATION

Provided that continuous enrollment is maintained, students may elect the general education and graduation requirements in effect at the time of entrance to Southwestern College, or any catalog year thereafter (Policy No. 6041).

CONTINUOUS ENROLLMENT

Continuous enrollment is defined as completion of a course during at least one semester in a calendar year excluding summer session. Completing a course is defined as receiving a grade of A, B, C, D, F, I, Pass (P), or No Pass (NP). Receiving a grade of "W" will not satisfy the requirement for completing a course (Policy No. 6087).

MULTIPLE DEGREES

Students who qualify may receive additional associate degrees provided the designated degree to be earned will represent a change in major from the degree or degrees previously earned. A student who has already earned a bachelor's or higher degree may

qualify for an associate degree providing that the designated major is different from the bachelor's or higher degree.

For each additional degree, the student must complete all requirements for the new major with a minimum of 18 new units. The additional units must include a minimum of 12 units in the major. In addition, the student must meet all graduation requirements enforced at the time of declaration of a new major.

ADT Exemption: Students who have previously been awarded an Associate Degree and wish to receive an ADT will be exempt from the additional unit requirement of 18 new units and 12 units in the major. Students who wish to pursue a second ADT in a new major will also be exempt from the additional unit requirement of 18 units and 12 units in the major. Students must complete all required courses for the ADT and submit a graduation petition for the new degree. Upon approval, the additional ADT will be posted to the student's academic record. (Policy No. 4100).

ACADEMIC RESIDENCY REQUIREMENT

The student must satisfactorily complete a minimum of 12 degree-applicable units at Southwestern College to satisfy academic residency and degree requirements.

UNIT AND SCHOLARSHIP REQUIREMENT

Students must satisfactorily complete 60 or more units of coursework which will satisfy all graduation requirements. This means either credit earned on a Pass/No Pass basis or cumulative grade point average of 2.0 or better for credit earned on a grading scale basis for all college coursework attempted, for all Southwestern College course work attempted. Effective for all students admitted for the fall 2009 term or any term thereafter, all courses applicable toward the unit requirement for the major or area of emphasis for associate degrees and Certificates of Achievement or Proficiency must be completed with a "C" or better, or "P" if the course is taken on a Pass/No Pass basis.

WAIVER OR SUBSTITUTION OF A MAJOR COURSE

A student may request permission to waive or substitute a course that is required for the major to complete graduation requirements. Petitions must be submitted to and approved by the appropriate school dean. Petitions are available online at www.swccd.edu, click on Admissions and Registration, and then click on Printable Forms.

Please see page 61 for General Education, SWC Graduation and Proficiency requirements.

CSU AND IGETC CERTIFICATION

Please see the "Certificates and Certifications, Degrees and CSU/UC Requirements" on page 61 section for General Education, SWC Graduation and Proficiency requirements.

AWARDING DEGREES AND DIPLOMAS

Degrees and diplomas will be awarded at the end of the semester in which the requirements are completed and the petition has been submitted, after final grades are posted.

Diplomas are issued only after completion of all graduation requirements have been verified. Diplomas will be issued in the name of record at the time the diploma is awarded. For information on obtaining your diploma or certificate of achievement, or a duplicate copy, please contact the Evaluations Office or visit the website at www.swccd.edu/evaluations.

GRADUATION WITH HONORS

This status as an honor graduate will be noted on both the degree and the permanent record (transcripts) for all such students.

COMMENCEMENT

Commencement is held once a year, at the end of the spring semester. Candidates for summer, fall and spring terms each year may participate in the ceremony. For more information, please visit the website at www.swccd.edu/evaluations.

ACADEMIC POLICIES & REGULATIONS

ACADEMIC FREEDOM POLICY

Southwestern Community College District recognizes that academic freedom is essential in maintaining the academic integrity of the institution and in protecting the rights of both the faculty and the students in the learning process. Each individual is obliged by scholarly ethics and academic freedom to speak openly. So too are others obliged to listen with courtesy and to respond with respect and decency to any statement made with conviction and sincerity. Responding with cordiality and respect does not deny the academic freedom of any party, but rather ensures the free and open exchange of all opinions. It is consistent with these ideals that no one may be compelled to adopt the opinions of others offered in dissension, yet all must honor the right of dissenters to bear true faith in their expressions (Policy No. 7027).

Each faculty member has the right and the responsibility to introduce materials and controversial topics into classroom discussion and to provide opportunity for the expression of diverse points of view. The subject matter must be relevant to the discussion.

Members of the faculty are also private citizens and are not only entitled to express their own opinions in public but are encouraged to do so. When they speak or write as citizens, they must be free from institutional censorship and discipline, but their special position in the community imposes special obligations. Hence, as scholars they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and should make every effort to indicate that they are not speaking for the institution.

The District recognizes the right of the faculty to privacy of communication in accordance with the First Amendment. When executing their duties in an appropriate manner, faculty must be able to communicate with their colleagues without restraint. The District further recognizes that censorship and fear of reprisal do not promote scholarly interaction.

The District honors the freedom of expression guaranteed by the First Amendment of the Constitution of the United States of America and does not restrict the contents of any form of faculty expression.

[Parts of this policy are adapted from the American Association of University Professors "1940 Statement of Principles on Academic Freedom and Tenure", which has been reaffirmed annually thereafter.]

Note: An Academic Freedom policy is mandated in the California Code of Regulations, Title 5, §51023(a).

ACADEMIC INTEGRITY

Southwestern College is a community of scholars and learners committed to the principles of honesty, trustworthiness, fairness, and respect for the learning process. Students share with faculty and staff the responsibility for promoting a climate of integrity. As members of this community, students are expected to adhere to these fundamental values at all times in their academic endeavors (Policy No 7029).

Violations of academic integrity include, but are not limited to, cheating, plagiarism, lying, stealing, submitting others' work as one's own, or permitting anyone else to do the same. The faculty should make their students aware of specific expectations related to academic integrity in every class and should define academic integrity within the context of the course. The faculty are encouraged to provide pertinent examples of plagiarism, cheating and other violations.

Students are required to conduct themselves with integrity and honor, and when violations of academic integrity occur, faculty members must address the violations quickly, judiciously, and fairly. They should document all incidents including any informal sanctions with their school dean. It is the prerogative of the faculty member whether to pursue formal sanctions related to violations of academic integrity. Formal sanctions shall be addressed through appropriate Standard of Student Conduct Procedures (Policy No. 5500).

HARASSMENT & DISCRIMINATION

Age Discrimination Act (42 U.S.C. §6101).

I. UNLAWFUL DISCRIMINATION

The District is committed to providing an academic and work environment free of unlawful discrimination. "Unlawful discrimination" is defined as discrimination, including harassment, based on age, ancestry, color, ethnic group identification, national origin, religion, race, gender, sexual orientation, physical or mental disability, veteran status or on the basis of these perceived characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics. The definition of "sexual harassment" and other terms are set forth below. This procedure describes the process for the investigation and resolution of complaints of unlawful discrimination by or against any employee or student within the District.

Failure to report harassment and discrimination impedes the District's ability to stop discriminatory behavior; the District strongly encourages employees and students who believe they are being harassed or discriminated against to file a complaint. The District also strongly encourages the filing of such complaints within 30 days of the alleged incident. While all complaints are taken seriously and will be reviewed promptly, delay in filing impedes the District's ability to investigate and remediate. The District further encourages students and staff to let the offending person know immediately and firmly that the conduct or behavior is unwelcome, offensive, in poor taste and/or inappropriate.

All supervisors and managers have a mandatory duty to report incidents of harassment and discrimination; the existence of a hostile, offensive or intimidating work environment, and acts of retaliation.

The District is legally obligated to investigate when it discovers the possibility that discrimination, including harassment, is, or may be occurring, regardless of whether a complaint is filed. The Vice President for Human Resources is charged with receiving complaints of discrimination or harassment, and coordinating their investigation. The actual investigation of complaints may be assigned by the Vice President for Human Resources to other staff or to outside persons or organizations under contract with the District. Such assignment shall occur whenever the Vice President for Human Resources is named in the complaint or implicated by the allegations in the complaint. All employees shall cooperate with a District investigation into allegations of harassment or discrimination.

District Policy and Procedure No. 3430, "Prohibition of Harassment & Discrimination," will be available to all students and employees in hard copy and electronic format. Beginning January 1, 2010, new employees shall be required to sign that they have received the policy and procedures, and the signed acknowledgment of receipt will be placed in each new employee's personnel file. In addition, these policies and procedures shall be incorporated into the District's course catalogs and orientation materials for new students.

II. DEFINITIONS

Disability. A physical or mental impairment as defined in Government Code, section 12926 which limits (makes difficult) one or more major life activities. A person may be considered disabled who has a record of such an impairment, or is regarded as having such an impairment.

Environmental Harassment. A hostile academic or work environment is one permeated by insults or abusive comments directed at an individual or group; or gratuitous comments regarding any of the protected categories, which are not relevant to the subject matter of the class or activities of the job. It can also be created by an unwarranted focus on, or stereotyping of, particular racial or ethnic groups, sexual orientations, genders or other protected characteristics. An environment may also be hostile toward anyone who witnesses unlawful discrimination in his or her immediate surroundings, although the conduct is directed at others. The determination of whether an environment is hostile is based on the totality of the circumstances, including such factors as the frequency of the conduct, the severity of the conduct, whether the conduct is humiliating or physically threatening, and whether the conduct unreasonably interferes with an individual's ability to learn or perform work duties.

Gender. Sex, including a person's gender identity and gender-related appearance and behavior, whether or not stereotypically associated with the person's assigned sex at birth. Gender-based harassment does not necessarily involve conduct that is sexual. Any hostile or offensive conduct based on gender can constitute prohibited harassment.

Physical Harassment. Inappropriate or offensive touching, assault, or physical interference with free movement. This may include, but is not limited to any physical intimidation or assault directed at an individual or group.

Protected Categories are those characteristics contained within the definition of unlawful discrimination: age, ancestry, color, ethnic group identification, national origin, religion, race, gender, sexual orientation, physical or mental disability, veteran status.

Sexual Harassment. Sexually harassing conduct can occur between people of the same or different genders. Such conduct includes unwelcome sexual advances, requests for sexual favors, kissing, patting, lingering or intimate touches, grabbing, pinching, leering, staring, unnecessarily brushing against or blocking another person, whistling or sexual gestures, and other conduct of a sexual nature when:

- (a) submission to the conduct is made a term or condition of an individual's employment, academic status, or progress;
- (b) submission to, or rejection of, the conduct by the individual is used as a basis of employment or academic decisions affecting the individual;
- (c) he conduct has the purpose or effect of having a negative impact upon the individual's work or academic performance, or of creating an intimidating, hostile or offensive work or educational environment; or
- (d) submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through the District.

There are two types of sexual harassment:

- (1) "Quid pro quo" sexual harassment occurs when a person in a position of authority makes educational or employment benefits conditional upon an individual's willingness to engage in or tolerate unwanted sexual conduct.
- (2) "Hostile environment" sexual harassment occurs when unwelcome conduct based on a person's gender is sufficiently severe or pervasive so as to alter the conditions of an individual's learning or work environment, unreasonably interfere with an individual's academic or work performance, or create an intimidating, hostile, or abusive learning or work environment. A hostile environment can arise from continual sexual innuendo, an unwarranted focus on sexual topics, or sexually suggestive statements in the classroom or work environment. The victim must subjectively perceive the environment as hostile, and the harassment must be such that a reasonable person of the same gender would perceive the environment as hostile.

Verbal Harassment. Inappropriate or offensive remarks, slurs, jokes or innuendoes based on one or more protected categories. This may include, but is not limited to, inappropriate comments regarding an individual's body, physical appearance, attire, sexual prowess, marital status or sexual orientation; unwelcome flirting or propositions; verbal abuse, threats or intimidation; or demeaning, patronizing or ridiculing statements that convey derogatory attitudes based on one or more of the protected categories.

III. UNLAWFUL DISCRIMINATION & HARASSMENT COMPLAINTS (TITLE 5 §59328-59339)

A. Filing a Complaint

- (1) The complaint shall be filed by one who alleges that he or she has personally suffered unlawful discrimination or by one who has learned of such unlawful discrimination in his or her official capacity as a faculty member or administrator.
- (2) This Title 5 process will also be used to investigate and resolve complaints filed by a peer, family member or another third party. In the case of such third party complaints filed on behalf of an individual, the College District will require written consent from the injured party on behalf of whom a complaint is filed, including the scope of disclosure made to the complaint filer acting in the place and stead of the injured party. The College District will not require written consent in the case of third-party complaints filed on behalf of a class of individuals.
- (3) The College District encourages complainants to submit the complaint using a form prescribed by the California Community College Chancellor's Office. The form must be completed in its entirety. The form is available from the office of Employee Services. If a complaint of unlawful discrimination is presented in another written form, such as a letter, the College District will request that

the complainant complete the form. However, if the complainant chooses not to do so, a legitimate complaint will not be dropped or ignored solely based on the failure to file the complaint on this form.

- 4) Any complaint not involving employment shall be filed within one year of the date of the alleged unlawful discrimination or within one year of the date on which the complainant knew or should have known of the facts underlying the allegation of unlawful discrimination.
- (5) Any complaint alleging discrimination in employment shall be filed within 180 days of the date the alleged unlawful discrimination occurred, except that this period shall be extended by no more than 90 days following the expiration of the 180 days if the complainant first obtained knowledge of the facts of the alleged violation after the expiration of the 180 days.

B. Where to File a Complaint

The Unlawful Discrimination Complaint must be filed with the Southwestern Community College District Vice President of Employee Services; or the Chancellor of the California Community Colleges at 1102 Q Street, Sacramento, California 95811.

Any District employee who receives a harassment or discrimination complaint shall immediately provide a copy to Employee Services.

C. District Response to Complaint

Upon receiving an unlawful discrimination complaint, the District shall take action as follows:

- 1) **Defective Complaint:** Determine whether the complaint is properly filed and/or whether an investigation is required. If the District finds the complaint to be defective, it shall notify the complainant within ten (10) working days that the complaint has been rejected and specify in what requirement the complaint is defective.
- (2) **Informal Resolution:** If the complaint is properly filed, undertake efforts to informally resolve the charges, including but not limited to mediation, rearrangement of work/academic schedules; obtaining apologies;

providing informal counseling and/or training, etc. The complainant shall be advised that he or she need not participate in an informal resolution of the complaint. When informal resolution is reached to the satisfaction of the parties, the matter will be closed and the Chancellor's Office shall be notified.

- (3) **Additional Notifications:** All properly filed complaints not informally resolved will be investigated. Notify complainant that he or she may file a complaint with the Office of Civil Rights of the U.S. Department of Education. Employee complainants shall be notified that they may file employment discrimination complaints with the U.S. Equal Employment Opportunity Commission (EEOC) or the Department of Fair Employment and Housing (DFEH). The District shall also notify the Chancellor of California Community Colleges of the complaint.

- (4) **Investigation:** The District shall take reasonable steps to ensure the confidentiality of the investigation and to protect the privacy of all parties to the extent possible without impeding the District's ability to investigate and respond effectively to the complaint.

- (a) Commence an impartial fact-finding investigation of the complaint and inform the complainant and the Chancellor's Office of the name of the investigator. The investigation will include interviews with the complainant, the injured party (if not the complainant), the accused, and any other persons who may have relevant knowledge concerning the complaint. This may include alleged victims of similar conduct.

- (b) Set forth the results in a written investigation report, including a description of the circumstances giving rise to the complaint, a summary of the testimony of each witness, an analysis of any relevant data or other evidence collected during the investigation, a specific finding as to whether there is probable cause to believe that discrimination did or did not occur with respect to each allegation in the complaint, and any other appropriate information.

(5) Administrative Determination:

Within ninety (90) days from the date the District received the complaint, the District shall complete its investigation and issue the administrative determination of the Vice President for Human Resources as to whether there is probable cause to believe that harassment or other discriminatory conduct did or did not occur with respect to each allegation in the complaint. The complainant shall also be provided with a copy or summary of the investigation report (at the District's discretion), a description of action taken, if any, remedy the effects of the harassment or other discriminatory conduct and to prevent similar problems from occurring in the future; the proposed resolution of the complaint; and notice of his or her right to appeal to the District's Governing Board. The results of the investigation and the determination as to whether harassment or other discriminatory conduct occurred shall also be reported to the accused, and the appropriate academic or administrative official(s). Information provided to the complainant and the accused shall be prepared so as not to violate any applicable privacy rights of the accused.

- **Extensions of Time:** The District may request an extension of time in which to complete its investigation if it is unable to comply with the ninety-day requirement for reasons beyond its control. The request shall be submitted to the Chancellor's Office no later than ten (10) days prior to the expiration of the deadline and shall set forth the reasons for the request and the date by which the District expects to be able to complete its investigation and issue an administrative determination. A copy of the request for an extension shall be sent to the complainant, who shall be notified that he or she may file written objections with the Chancellor within five (5) days of receipt. The Chancellor may grant the request unless delay would be prejudicial to the investigation.

(6) Appeals to Governing Board: If the complainant is not satisfied with the results of the administrative determination, he or she may, within fifteen (15) days, file a written appeal

to the Governing Board. The appeal must be in writing, and must bear the complainant's name, original signature, address and telephone number. The appeal must include the reasons the administrative decision is not acceptable to the complainant. The Board shall review the original complaint, the investigative report, the administrative determination, and the appeal. The Board shall issue a final District decision within forty-five (45) days after receiving the appeal. If the Governing Board does not act within forty-five (45) days the administrative determination shall be deemed approved and shall become the final District decision. The District shall notify the complainant and the Chancellor's Office of the final District decision.

D. Results of Complaint

If the final District decision concludes that harassment, discrimination and/or retaliation occurred, the District shall take disciplinary action against the accused and any other remedial action it determines to be appropriate. The action will be prompt, effective, and commensurate with the severity of the offense. Although disciplinary actions are, and must remain, confidential, the nature of the disciplinary action imposed may be communicated to the complainant in some instances, including where the sanction relates directly to the complainant (or injured party) or where otherwise necessary for the complainant to determine whether the College District's remedial actions are sufficient to resolve the complaint.

Disciplinary actions against faculty, staff and students will conform to all relevant statutes, regulations, personnel policies and procedures, including the provisions of any applicable collective bargaining agreement.

The District shall also take reasonable steps to remedy the effects of the harassment or other discriminatory conduct on the complainant (or injured party), to protect the complainant (or injured party) from further harassment, and/or discrimination, and to protect the complainant, injured party, and witnesses from retaliation as a result of communicating the complaint and/or assisting in the investigation.

IV. MANDATORY TRAINING

The Southwestern Community College District shall provide sexual harassment training and education to each supervisory employee once every two years. All new supervisory employees must be provided with the training and education within six months of their assumption of a supervisory position.

The training and education required by this procedure shall include information and practical guidance regarding the federal and state statutory provisions concerning the prohibition against and the prevention and correction of harassment and discrimination in employment. The training and education shall also include practical examples aimed at instructing supervisors in the prevention of harassment, discrimination, and retaliation, and shall be presented by trainers or educators with knowledge and expertise in the prevention of harassment, discrimination, and retaliation.

Participants in training programs will be required to sign a statement that they have either understood the policies and procedures, their responsibilities, and their own and the district's potential liability, or that they did not understand the policy and desire further training.

PRIVACY AND RIGHTS POLICIES

FERPA

ANNUAL NOTIFICATION TO STUDENTS FERPA AND PRIVACY RIGHTS

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

The right to inspect and review the student's educational records within 45 days of the day the College receives a request for access.

A student should submit a written request to the Department that identifies the record(s) the student wishes to inspect. The College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct department to whom the request should be addressed.

The right to request an amendment of the student's educational records that the student believes are inaccurate, misleading or otherwise in violation of this student's privacy rights under FERPA.

The student who wishes to ask the College District to amend a record should write to the College official responsible for the record, clearly identifying the part of the record the student wants changed, and specifying why it should be changed.

If the College District decides not to amend the record as requested, the College District will notify the student in writing of the decision and the student's right to appeal the decision. For specific details for the appeals process, please refer to College District procedure 5045 – Student Records – Challenging Content.

The right to provide written consent before the College District discloses personally identifiable information from the student's educational records, except to the extent that FERPA authorizes disclosure without consent.

References: Education Code Section 76224(a); Title IX, Education Amendments of 1972; Title 5 Section 51023.7

Note: Complaints under Section 504 and/or Americans with Disabilities Act are made to the Section 504 Coordinator in Office of Student Services. Complaints of sexual harassment and other forms of unlawful discrimination are made to the Human Resources Compliance Coordinator in the Office of the Vice President for Employee Services.

The student is encouraged to pursue academic studies and other College District-sponsored activities that will promote intellectual growth and personal development. In pursuing these ends, the student should be free of unfair and improper action by any member of the academic community.

I. STUDENT GRIEVANCE PROCEDURES

A grievance may be initiated by a student when he/she believes he/she has been subject to an unjust action or denial of rights as stipulated in College District regulations and in the state education and administrative codes. Such action may be instituted by the student against another student, faculty, administrator or staff member. A grievance must be initiated no later than the end of the term during which the incident occurred or within 30 days if the alleged action took place during the last two weeks of the semester. Where a student believes an injustice has taken place, the student may seek resolution through the following procedures.

Grade and grading disputes are addressed within this administrative procedure, unless the student is alleging discrimination, harassment, or related retaliation in grading. Students should refer to the "Student Grade Dispute Procedure—Section II" found in this procedure.

The procedure does not apply to:

- Student Disciplinary records covered by College District Procedure No. 5500 AP—Standards of Student Conduct.
- Police citations. Complaints about citations must be directed to the Campus Police or San Diego County Superior Court in the same manner as any traffic violation.
- Complaints alleging unlawful discrimination, harassment, or related retaliation should be filed under College District Procedure No. 3430 AP—Prohibition of Harassment and Discrimination.
- Appeals for residency determination. Residency appeals are filed with Admissions and Records.
- Evaluation of professional competence, qualifications or job performance of any College District employee. The Dean of Student Services reserves the right to transfer the student grievance to the Vice President for Employee Services when deemed appropriate.

A grievance exists when an error or offense has resulted in an injury or harm that may be corrected through this grievance procedure. As noted, there may be other procedures applicable to various other alleged injuries or harms, and this grievance procedure may not be the sole or exclusive remedy, and it may not be necessary to exhaust this process before presenting allegations to other College District or government agencies.

The Superintendent/President shall appoint the Dean of Student Services or his/her designee to assist students in seeking resolution.

Informal meetings and discussion between persons directly involved in the grievance are essential at the outset of a dispute and should be encouraged at all stages. An equitable solution should be sought to avoid persons involved in the case becoming polarized, which could render a solution more difficult to achieve.

At no time shall any persons directly or indirectly involved in the case use the facts, the information which has been discussed, or the character of the informal discussion for the purpose of strengthening the case for or against persons directly involved in the dispute for any other purpose other than the settlement of the grievance.

The determination of whether the Report of Student Grievance presents sufficient grounds for review shall be based on the following:

- The grievant must be a student, which include applicants and former students.
- The grievant is personally and directly affected by the alleged grievance.
- The grievance was filed in a timely manner.
- The grievance is not frivolous, clearly without foundation, or filed for the purpose of harassment.

The Report of Student Grievance must include the following:

- A clear and concise statement of the grievance.
- Name(s) of the individuals against who the grievance is being filed.
- Identify the resolution, corrective action or remedy being sought.
- Summary of actions already taken to attempt to resolve the issue.

The Report of Student Grievance must be filed whether or not the student has already initiated efforts at informal resolution, if the student wishes the grievance to become official.

Preliminary Action Procedure

1. The student who believes an injustice has occurred shall attempt to resolve the grievance by informal consultation with the student, staff, faculty or administrator concerned.
2. If this proves to be less than satisfactory, the student will inform the School/Center Dean or Supervisor of the area, who shall attempt to resolve the grievance by informal consultation with the student, staff, faculty concerned.

Formal Grievance

3. If the student still believes that the issue has not been resolved satisfactorily through the informal resolution process, the student shall submit a completed "Report of Grievance" to the Dean of Student Services. In cases in which the College District Police

Department has been involved or in which the situation has become an issue of safety, the preliminary actions need not be adhered to.

4. During the preliminary meeting with the Dean of Student Services, he/she shall confer with the student for the purpose of reviewing the grievance and attempting to resolve the matter.
5. The Dean of Student Services or designee may also obtain information relating to the grievance from other parties involved.

The Dean of Student Services will notify each party of the following actions being considered:

- Dismissal of the grievance for lack of merit.
- Agreement among parties to work towards an equitable solution.
- Remand of the case to a formal hearing. (Guidelines for Due Process on page 5)
- Charges are filed against the student for misconduct. (Pursuant to College District Procedure No. 5500 AP—Standards of Student Conduct.)

From the date the student is notified of the Dean of Student Services' decision, any request for a hearing of the Grievance and Order Committee must be received postmarked or hand delivered in three (3) working days. Appeals shall be made in writing and delivered to the Office of Student Services.

The Dean of Student Services shall arrange a review of the case by formal hearing to consider the disposition. Please see Guidelines for Due Process in this procedure.

I. STUDENT GRADE DISPUTE PROCEDURES

If a student feels that an instructor has issued a grade based on capricious action in the evaluation of the student's academic performance, the student must be able to substantiate the claim by showing evidence of a mistake, fraud, bad faith, and/or incompetence. If a student feels that an instructor has issued a grade based on unlawful discrimination, harassment, or related retaliation, the complaint is not covered by this procedure. The student should file with the Human Resources Compliance Coordinator in the Office of the Vice President for Employee Services under College District Procedure No. 3430 AP—Prohibition of Harassment and Discrimination.

California Education Code Section 76224 states:

When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course, and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith or incompetence, shall be final.

Students should note the following definitions which are taken from Black's Law Dictionary:

- Mistake—some unintentional act, omission, or error by the instructor;
- Fraud—an intentional perversion of the truth for the purpose of inducing another to part with something valuable or to surrender a legal right;
- Bad Faith—synonymous with fraud, neglect, or refusal to fulfill some duty or contractual obligation, not prompted by an honest mistake as to one's rights or duties;
- Incompetence—lack of ability, legal qualification, or fitness to discharge a required duty.

If the student feels that an instructor has given a grade based on a mistake, fraud, bad faith, or incompetence, and the student has evidence to substantiate the claim, these steps must be followed:

1. The student must contact his/her instructor to discuss, clarify, and attempt to resolve the grade dispute in person, via electronic mail, or in writing within 30 working days of the time the official grade report was posted on WebAdvisor or on the official transcript. Grades are posted within one week after the end of a semester or term. If the concern is not resolved satisfactorily, then:
2. The student must discuss the matter with the School/Center Dean, or designee, in person, via electronic mail or in writing within 10 working days. The School/Center Dean, or designee, will try to resolve the dispute and will respond to the student in writing.
3. If the concern is still unresolved, the student must within 10 working days after receiving written response from the School/Center Dean, or designee, discuss the matter with the Vice President for Academic Affairs or designee in person, via electronic mail or in writing. The Vice President for Academic Affairs, in consultation with the Academic Senate President, will render a final decision in writing within 15 working days.

4. The decision made by the Vice President for Academic Affairs or designee, in consultation with the Academic Senate President, will be final. There will be no requests granted for a due process hearing.

STUDENT RIGHTS AND RESPONSIBILITIES

Becoming a student at Southwestern College means becoming a member of an academic community of faculty, staff, administrators, and other students. The heart of the community is the student, who has both the right and responsibility to take a primary role in his/her education. At Southwestern College, the student learns that a good education goes beyond what is taught in lectures and textbooks. Students are encouraged to actively participate in the cultural and social opportunities afforded by the academic community.

STUDENT RIGHT-TO-KNOW

In compliance with the Student Right-to-Know (SRTK) and Campus Security Act of 1990 (Public Law 101-542) and as a service to its community, the Southwestern Community College District makes available its completion and transfer rates to all current and prospective students.

Beginning in fall 2006 a cohort of all college students who were certificate-, degree-, and transfer-seeking first time, full-time students were tracked over a three-year period. The completion and transfer rates are based on information submitted by each college to the U.S. Department of Education. Based on the cohort defined above, 19.63 percent of the SWC cohort attained a certificate or degree or became transfer-prepared from fall 2006 to spring 2009. In addition, 12.48 percent transferred to another postsecondary institution (University of California, California State University, or other California community college) during the same three-year period.

Note: The above rates do not represent the success rates of the entire student population at Southwestern College (SWC), nor do they account for student outcomes occurring after this three-year tracking period. Additionally, the rates do not describe other important features about the College and its students. SWC contributes significantly to the lives of thousands of students in assisting them to meet their educational goals.

More information concerning SRTK is available from the Office of Institutional Effectiveness and Academic Affairs Offices. Additional information can also be found at the following websites: <http://www.cccco.edu/divisions/tris/mis/srpk.htm> and <http://srpk.cccco.edu/091/99index.htm>.

ACADEMIC ACCOMMODATIONS POLICY

The Southwestern Community College District is committed to providing support programs and services for students with verified disabilities in accordance with Section 504 of the Rehabilitation Act of 1973 (1) and the Americans with Disabilities

Act of 1990. The fundamental principles of non-discrimination and accommodation in academic programs provide that (Policy No. 5140):

- No student with a qualified disability shall, on the basis of the disability, be excluded from participation in, be denied the benefit of, or otherwise be subjected to discrimination under any post-secondary education activity or program; ([84.43(a)] Section 504, Fed. Rehab. Act, 1973); and
- Reasonable accommodations or adjustments to academic activities shall be made as are necessary to ensure that such requirements do not discriminate or have the effect of discrimination on the basis of the disability; and
- The District shall maintain an educational environment where students with disabilities have equal access to instruction without compromising the essential components of the course, educational program or degree.

To ensure that students with disabilities receive appropriate accommodation in their instructional activities, the Southwestern Community College District adopted procedures to review any dispute regarding academic accommodations. Primary responsibility for implementation of the Academic Accommodation Review Procedures is assigned to the 504 Compliance Officer/Dean of Student Services, appointed annually by the Superintendent/President.

In compliance with state and federal laws and in order to create an educational environment where students with disabilities have equal access to instruction without compromising any course, educational program or degree, the procedures outlined below have been developed.

ACADEMIC ADJUSTMENT PROCEDURES

1. The student bears the responsibility of presenting Disability Support Services (DSS) with professional disability verification that describes specific educational limitations before an academic accommodation will be authorized.
2. If the student does not have appropriate disability verification, DSS will direct the student to the appropriate professional who can determine disability, or will initiate an assessment to determine and document a disability within the scope of assessment services provided by DSS and deemed necessary by a DSS professional.
3. The DSS professional, who meets the standards established by state regulations, will assess and document the extent and the effects of the current disability. Depending on the severity and educationally related functional limitations of the assessed disability, the DSS professional shall authorize accommodations immediately upon request of the student.
4. The student will submit to his/her instructors the authorized accommodations forms completed by the DSS professional.

INFORMAL RESOLUTION

- 4a. The College is charged with determining and providing what it believes to be the appropriate academic accommodation for a student. A student who disagrees with the academic accommodation(s) prescribed by DSS should discuss his/her concern with the DSS professional recommending the accommodation. If the student's concern continues to be unresolved, the student should discuss his/her concern with the DSS Director. If the concern continues to be unresolved, the next step is to contact the 504 Compliance Officer/Dean of Student Services as outlined in number 5 below. Student must then file an Academic Accommodation

appeal with 504 Compliance Officer prior to the posting of the final grade.

- 4b. If an instructor has questions about an accommodation requested by a student with a verified disability, the instructor should promptly contact the DSS professional who authorized the accommodation(s). Informal meetings and discussion among the instructor, department chair or designee, the student, the appropriate members of DSS, and/or other appropriate members of the college community are essential at the outset, and will be completed within five (5) instruction days following the student's request for the accommodation.
5. If no informal resolution can be found within five (5) instruction days and the accommodation is not allowed, the DSS professional, student, or the instructor will refer the matter to the 504 Compliance Officer/Dean of Student Services as soon as possible for review. The 504 Compliance Officer/Dean of Student Services will conduct interviews with all involved parties, and will make a decision regarding the accommodation within seven (7) instruction days of having received the matter.
6. Following notification by the 504 Compliance Officer/Dean of Student Services, if either the instructor or the student disagrees with the decision, they will notify the 504 Compliance Officer/Dean of Student Services in writing within three (3) instruction days. Written notice must be hand-delivered or postmarked by the three (3) day deadline. The 504 Compliance Officer/Dean of Student Services will then proceed with the Academic Accommodation Hearing process.
7. The accommodation originally authorized by DSS will be allowed for a maximum of four (4) instruction weeks during which time a resolution will be achieved. If the decision of the Committee is that the accommodation is not reasonable, the accommodation will either be modified or rescinded depending upon the Academic Accommodation Hearing Committee's recommendations.

ACADEMIC ACCOMMODATION HEARING PROCESS

Students or instructors wishing to appeal a decision made by the 504 Compliance Officer/Dean of Student Services at the conclusion of the informal resolution process will file a formal written request for a hearing with the College's 504 Compliance Officer/Dean of Student Services. The 504 Compliance Officer/Dean of Student Services is located on campus, in the Cesar Chavez Building, Room S109, 619-482-6369.

1. The 504 Compliance Officer/Dean of Student Services is responsible for informing the complainant of his/her rights, responsibilities, and procedures.
2. The accommodation originally authorized by DSS will be allowed for a maximum of four (4) instructional weeks during which time a resolution will be achieved.
3. An Academic Accommodation Hearing Committee will be scheduled by the 504 Compliance Officer/Dean of Student Services within five (5) instructional days to review the complaint. The hearing will be convened within ten (10) instructional days. The committee will be composed of the following voting members:
 - a. DSS Director or his/her designee
 - b. ADA Compliance Officer or his/her designee
 - c. Appropriate Department Chairperson
 - d. Academic Senate President or his/her designee
 - e. 504 Compliance Officer
4. The 504 Compliance Officer/Dean of Student Services shall serve as Chairperson and will vote only in case of a tie and will be responsible for appointing a secretary or providing a tape recording of the hearing.
5. All five (5) voting members, including the chair, shall constitute a quorum by which the hearing may proceed.
6. Both parties have the right to present witnesses, testimony, and evidence, but only as related to the case.
7. Both parties have the right to be accompanied by an advocate in the formal appeal hearing.
8. The hearing shall be closed to the public.
9. The Committee shall review both the written and oral testimony presented and shall render a written decision within three (3) instruction days following the conclusion of the

hearing. Copies of the findings shall be sent to the student, instructor, committee membership, and other cognizant administrative officers. In addition, a copy of the Committee's findings shall be sent to the College Superintendent/President.

10. The 504 Compliance Officer/Dean of Student Services shall inform the complainant of the Committee's action by certified mail within three (3) instructional days of the receipt of the Committee's findings.
11. Upon notification of the Committee's findings, either party may appeal the Committee's decision to the College Superintendent/President. Any appeal to the Superintendent/President must be made in writing, and shall be either hand delivered or postmarked within three (3) instructional days following notification of the Committee's findings.
12. The Superintendent/President will review the decision of the Committee and will either accept or modify the decision.
13. The Superintendent/President shall inform the complainant and the Committee of his/her final action by certified mail within fifteen (15) instructional days of the receipt of the appeal request.
14. The Superintendent/President's decision shall be the final decision rendered and shall be implemented within five (5) instruction days.
15. The confidential tape recording of the proceedings shall be kept in a confidential file by the 504 Compliance Officer/Dean of Student Services and a copy shall be available to the parties. All documents shall be filed separately from the personnel file of Southwestern College employees.

GENERAL PROVISIONS

1. The time limits specified herein shall be considered under normal circumstances and every effort shall be made to expedite the process. Time limits may be extended only by mutual consent, in writing.
2. The complainant may withdraw the appeal at any time. However, the same appeal shall not be filed again by the same complainant.
3. Either party may consult with the 504 Compliance Officer/Dean of Student Services regarding any of these procedures.

OTHER COMPLAINTS

Students wishing to file complaints or grievances based upon discrimination on the basis of physical or mental disability should contact the 504 Compliance Officer/Dean of Student Services located on campus, in the Cesar E. Chavez Building, Room S109, 619-482-6369.

SERVICE ANIMALS AT SOUTHWESTERN COLLEGE FACILITIES

In accordance with the Americans with Disabilities Act (ADA) of 1990, people with disabilities may bring their service animals into all Southwestern Community College District facilities.

A service animal is defined as “any animal that is individually trained to do work or perform tasks for the benefit of a person with a disability.” Under the ADA, a service animal is not considered a pet. Service animals must be permitted to accompany a person with a disability everywhere on campus or off campus as the activity (e.g., internship, field work, etc.) pertains to the curriculum. If there are any questions as to whether an animal qualifies as a service animal, a determination will be made by the Section 504 Compliance Officer/Dean of Student Services and/or DSS Director (542. U.S. Code Sections 12101, Policy No. 5143).

STUDENT RIGHTS POLICY

If admitted to Southwestern Community College District in accordance with District admission policies (Education Code Section 76000), a student can exercise the following rights pursuant to Title 5, Sections 55521, 55530, 55534, 58106:

- Enrollment in any course for which the student can meet necessary and valid prerequisites and corequisites that have been established pursuant to Title 5, Section 58106.
- Access to clear and consistent information describing student rights and responsibilities available in college publications and documents such as catalog, schedule, and student educational plan.
- Participation in an efficient matriculation process that encourages student access to college programs.
- Maintaining enrollment status in a course after the beginning of the semester. The student may withdraw voluntarily or can be dropped from the course against his/her will if he/she fails to comply with District attendance policy or exhibits disruptive behavior as identified in District policy. A student who does not meet the mandatory prerequisite or corequisite may be dropped from a course. Therefore, it is incumbent upon the College to ensure that students are informed about mandatory prerequisites and corequisites and that prerequisites and corequisites are enforced in a timely and efficient manner. (Title 5, Section 55758)

A student may petition for waiver or appeal if he feels that assessment, orientation, counseling, prerequisites, corequisites, or any other matriculation procedures are being applied in a discriminatory manner. Where a student believes an injustice is being done, the student may seek redress through established grievance policy and procedure. See this catalog under SSSP Appeals Petition, page 14.

GENERAL DESCRIPTION

Astronomy, the oldest science, is a physical science that has played an important function in the development of modern science. This discipline explores the universe at large and the physical processes that govern it. Astronomers have historically investigated the laws, physical properties and behavior, chemistry, and composition of astronomical phenomena. Modern astronomers use advanced technology to explain and understand planets, comets, stars, nebulae, galaxies, quasars, pulsars, black holes, and the evolution of the universe.

CAREER OPTIONS

Below is a sample of the career options available for the astronomy major. A few require an associate degree, some require a bachelor's degree, and most require a graduate-level degree: high school or college instructor, space science technician, astronaut, astrophysicist, astronomer, observatory technician, telescope operator, scientific computer programmer, space engineer, mathematician, and positions in planetaria or allied professions of business and industry.

GENERAL DESCRIPTION

The Baja California Studies certificate allows students to develop a concentration of study devoted to Baja California that complements any major. The certificate is based on interdisciplinary courses that focus on Baja California. It is not a major but provides students a list of courses that help fulfill general education requirements in various disciplines while focusing intensively on Baja California. Students develop a keen appreciation of the rich connections between the arts, humanities, social life, and physical sciences.

CAREER OPTIONS

The Baja California Studies certificate complements any major; therefore, it is an asset to those who seek employment opportunities in a variety of fields. It prepares recipients to assume leadership roles in the complex educational, environmental, civic, and health issues facing Baja California and the border region. In addition to expanding employment opportunities, it prepares students to transfer to a four-year degree institution to continue interdisciplinary, Mexican-American, or Latin American studies.

GENERAL DESCRIPTION

Biology is a natural science that focuses on physical and chemical processes in living organisms. This discipline explores how organisms acquire and use energy to maintain homeostasis, how they reproduce, and how they interact with each other and their environment. Biological processes are emphasized as a means of answering these questions. Biologists rely heavily on a chemistry foundation since living organisms are chemical systems.

CAREER OPTIONS

Below is a sample of the career options available for the biology major. A few of these require an associate in science degree, most require a bachelor's degree, and some require a graduate-level degree: agricultural consultant, animal health technician, biotechnology technician, dentist, environmental consultant, field biologist, forester, horticulturist, genetic counselor, bioinformatics specialist, agricultural scientist, environmental health worker, exercise physiologist, high school or college teacher, marine biologist, microbiologist, public health technician, physician, pharmaceutical researcher, research biologist, and veterinarian. In addition, a background in biology may be required for the following: registered nurse, physical therapist, respiratory therapist, dental hygienist, medical technician, physician's assistant, and optometrist.

Lower-division requirements are not the same for all universities, and there are differences among the areas of specialization. However, the courses listed below meet the lower-division requirements for most universities offering a bachelor's degree with a major in one of the biological sciences.

Students should start with mathematics and chemistry during the first year, as these are required for other science courses. Some of the courses may be applied toward the general education requirement.

Courses offered in biology, other than those listed below, are intended as general education courses for nonscience majors. They are not the acceptable courses for biology majors. Biology majors will take similar but more intensive courses as part of their upper-division requirements.

PROGRAM STUDENT LEARNING OUTCOME STATEMENT:

- Upon successful completion of the Biology Program, students will be able to communicate clearly in a way that reflects knowledge and understanding of biological processes and structures.
- Upon successful completion of the Biology Program, students will be able to approach and examine issues related to the biological sciences from an evidence-based perspective and communicate this information in a clear manner.
- Upon successful completion of the Biology Program, students will be able to demonstrate information literacy skills to access, evaluate, and use resources.
- Upon successful completion of the Biology Program, students will be able to use and apply the scientific method to critically evaluate hypotheses.

TRANSFER PREPARATION * (MAJOR CODE: 01530)

Chemistry is the study of the composition of matter, its structure, and the means by which it is converted from one form to another. Related to chemistry is molecular biology. Students interested in matter as it applies to life should also take courses in the life sciences. Most courses require mathematics prerequisites. Placement is determined by the Mathematics Assessment Process, which should be taken before registration. It is essential that students start with mathematics during the first semester.

Chemistry majors are advised to give priority to lower-division requirements for the major as they are prerequisites for most upper division courses. Only as many general education courses should be taken as can be included in the 70-unit transfer limitation, and these must be chosen with care to insure that they fit into the general education pattern at the transfer institution.

PROGRAM STUDENT LEARNING OUTCOME STATEMENT:

- Solve quantitative chemistry problems and demonstrate reasoning clearly and completely.

COMPUTER AIDED DESIGN AND DRAFTING

SCHOOL OF HEALTH, EXERCISE SCIENCE, ATHLETICS, AND APPLIED TECHNOLOGY

DEAN Terry Davis, M.H.A., Office H403, 619-482-6551

DEPARTMENT CHAIR David Preciado, A.A.

GENERAL DESCRIPTION

Designed to provide students with the skills and technical knowledge requested by employers using Computer Aided Design and Drafting (CADD) in a variety of disciplines. This program focuses on the development of CADD skills and problem-solving strategies in the development of two- and three-dimensional models. Additional engineering options allow students to acquire advanced CADD skills in areas of special interest.

The CADD technology associate in science degree prepares the student for various job opportunities in a wide variety of disciplines. There is an increasing demand for competent engineering technicians knowledgeable in the use and application of CADD software. Students planning to enroll in a four-year college engineering program will benefit greatly by developing CADD skills used in most engineering departments.

CAREER OPTIONS

Below is a sample of the career options available for the computer aided design major. Some require a certificate of achievement and most require an associate in science degree: mechanical, aeronautical, structural, and civil engineering. New areas of use can be found in animation, simulation, and theatrical departments. While drafting boards are still in use, a large number of companies have integrated drafting boards with monitors and computers, requiring that today’s engineers, designers, and draftsmen possess both essential drafting and CADD competencies.

DEPARTMENT CHAIR Richard Fielding, M.S.

GENERAL DESCRIPTION

Computer science is the youngest of the sciences and focuses on the study of computer software, architecture, theory, and applications. This discipline explores computing theory and symbolic computation, the nature of computer architecture and operating systems, data communications, graphics, software engineering, mathematical applications, robotics, artificial intelligence, and system software.

There are many curriculum choices open to students interested in the science of computers. Students interested in the hardware aspect of computers should look at the vocational and transfer courses offered in engineering and electronics programs. Students interested in the operations aspect of computers should review the programs offered in computer information systems and computer literacy courses.

The Computer science program at SWC focuses on the programming or software aspect of computer science and offers three academic pathways from which to choose:

- * Transfer preparation associate degree for students who plan to transfer and major in computer science
- * Career/Technical associate degree for students seeking employment at the technician level in science or mathematics fields
- * Career/Technical certificate

CAREER OPTIONS

Below is a sample of the career options available for the computer science major. A few of these require an associate in arts degree, most require a bachelor's degree, and some require a graduate-level degree: computer scientist, systems analyst, computer service coordinator, software engineer, computer graphic specialist, high school or college teacher, data base administrator, researcher, program analyst, teleprocessing coordinator, knowledge engineer, technical control specialist, systems manager, data processing application programmer, information specialist and positions available in allied professions of business, industry, and scientific technology.

Geography is a science that seeks to analyze the physical environment as well as study human influences to and interactions with the environment. Thus, this discipline examines the various physical forces that help shape the landscape and the role that humans play in the alteration of the landscape. Geography is a spatial and temporal science. A geographer will study the spatial and temporal distribution of vegetation across the globe, the physical forces leading to earthquakes and volcanoes, the historical and future arrangements of human societies across the planet, and the reasons behind differing climates from one part of the world to the next—presently, historically, and predictively. The field is strongly interdisciplinary with roots in the physical and cultural sciences.

CAREER OPTIONS

Below is a sample of the career options available for the geography major. A few of these require an associate in science degree, most require a bachelor's degree, and some require a graduate-level degree: geographer, high school or college instructor, cartographer, weather observer, demographer, land use planner, geographic analyst, aerial photo interpreter, remote sensing specialist, land economist, climatologist, environmental scientist, geographic information system specialist, site researcher, urban planner, and soil conservationist.

GEOGRAPHIC INFORMATION SCIENCE—CONTINUING STUDENTS AND WORKING PROFESSIONALS

CERTIFICATE OF PROFICIENCY CAREER/TECHNICAL (MAJOR CODE: 01771)

The following certificate track is designed for 1) continuing students seeking training in Geographic Information Science (GIS) for their specific discipline, and 2) working professionals seeking GIS training for their present job. The program introduces both GIS concepts and applications. Special emphasis is on hands-on experience with the hardware, software, and techniques employed in science, industry, and academia.

GIS integrates innovative tools and techniques that enables users to view and analyze temporal and spatial information in an exciting, dynamic, and productive fashion. Ultimately, a GIS helps you solve problems by looking at data in a way that is readily understood and easily shared. The ability of GIS to manage, correlate, predict, model, and share spatial information, visually and dynamically, makes GIS an essential component for any spatial discipline, including (but not limited to) geography, geology, environmental science, biology, political science, anthropology, humanities, criminal justice, health, history, education, economics, real estate, and military science.

PROGRAM STUDENT LEARNING OUTCOME STATEMENT:

- Students will be able to communicate their understanding and analysis results by making maps, writing research papers and technical reports, and developing multimedia presentations. Specifically, they should be able to demonstrate the principles of cartography and the convention of map making.
- Students will develop capabilities and technical skills to apply scientific research methods (in both natural and social sciences) to observe, collect, and process geographic data; to perform analysis based on the knowledge, theories and principles in geography; and to draw quantitative and qualitative conclusions. Specifically, they should be able to demonstrate the following: The capability to observe, collect, and process geographic data with state of the art technology, including GIS, Remote Sensing, GPS, field data collection instruments, as well as obtaining data from document and literature sources.
- Students will be able to demonstrate the capability to perform data analysis based on critical thinking skills and use of technical and quantitative methods, including GIS, Remote Sensing, modeling software, and statistical methods.

HOSPITALITY AND TOURISM MANAGEMENT

SCHOOL OF SOCIAL SCIENCES,
BUSINESS, AND HUMANITIES

DEAN Mark Meadows, Ph.D., Office 470K, 619-482-6570

DEPARTMENT CHAIR Gail Stockin, M.A.

GENERAL DESCRIPTION

Hospitality and tourism is a dynamic and growing industry in San Diego County with many opportunities and career paths for individuals who desire to advance and gain excellent positions in the field. While the field has many facets including recreation and entertainment, it is often divided into four key areas: event, and convention planning; travel and tourism; hotel operations; and culinary arts. The School of Business, Professional & Technical Education provides programs for employment training in all four areas at both the entry and management levels. Employment stability and wages vary within each area; however, the most lucrative positions can be found at the supervisory and managerial levels. These positions are often part of a career ladder which allows an entry-level employee to pursue additional education and training to gain positions of greater responsibility and higher wages. With this career ladder in mind, the School of Business, Professional & Technical Education has designed both a basic and an advanced certificate to allow students to enter or to advance in the industry. Our School has also designed an associate in science degree that will allow students to continue their studies with the goal of advancing even further within the industry.

In addition to these career training programs, a transfer program, Hospitality and Tourism Management, has been developed for students who desire to transfer to four-year institutions including San Diego State University at the local level, as well as other institutions at the state and national levels. Transfer students can work toward a bachelor's degree in hospitality and tourism, which is often required for top-level or high executive positions.

CAREER OPTIONS

Below is a sample of the career options available for the hospitality and tourism management areas. Most of these require a certificate or an associate in science degree. A few of the job titles that make up the hospitality industry include:

- Travel and Tourism—travel manager, transportation director, travel agent/consultant, tour guide, and travel entrepreneur
- Event and Convention Planning—event meeting and convention planner, and events manager/coordinator
- Hotel Operations—hotel operations assistant/manager, rooms division manager/lodge manager/coordinator
- Culinary Arts—chef's assistant, head chef, restaurant manager, catering manager, and food service manager

Employment can also be found in marketing agencies and organizations, cruise ships, bakeries, restaurants, catering establishments, hotels, convention and meeting centers, recreation and sports centers, and casinos. Opportunities are great for entrepreneurs who develop businesses in the specialty areas of the hospitality and tourism industry.

DEAN Mark Meadows, Ph.D., Office 470K, 619-482-6570

FACULTY Maria E. Martinez, M.B.A.; Marisa Soler-McElwain, L.L.M.

DEPARTMENT CHAIR Elisabeth Shapiro, J.D.

GENERAL DESCRIPTION

The legal secretary assists attorneys with a wide variety of responsibilities including performing clerical duties; maintaining office files; working closely with attorneys to meet deadlines for court calendars; preparing summonses, complaints, motions, and subpoenas; and filing documents with the courts. In some law offices, legal secretaries review legal reference books, other legal publications or electronic media to identify court decisions pertinent to pending cases.

Southwestern College offers two excellent programs: Legal Office Professional and Legal Office Professional—Bilingual (English/Spanish). These programs provide students with strong legal secretarial skills and focus on developing excellent human relations skills with an awareness of the growing multicultural community in San Diego County. An added feature is that students have an option of working toward a certificate or degree emphasizing one or more legal specialties, including family law; civil litigation; criminal law; business law; international law; immigration law; and wills, trusts, and probate. Students with a specialty and/or knowledge of a frequently used foreign language will have the greatest opportunities for employment.

CAREER OPTIONS

Below is a sample of the career options available for the legal secretary or the legal secretary major. A few of these require a certificate of achievement and most require an associate in science degree: claims examiner, compensation and benefits manager, corporate legal secretary, court clerk, customs agent, forms and procedures specialist, freelance legal secretary, legal aide, legal technician, title examiner, court interpreter, legal documents translator, and entry-level paralegal.

GENERAL DESCRIPTION

In today's highly technological society, the study of mathematics has become increasingly important, particularly to computer science. Mathematics is a study that provides a foundation for problem solving and logical reasoning skills. It includes arithmetic, algebra, geometry, trigonometry, calculus, statistics, and computer programming, etc. Mathematics is the science of numbers and their operations, interrelations, combinations, generalizations, and abstractions. In addition to college-level mathematics courses (numbered 100 or above) that will meet the lower-division needs of college transfer students, Southwestern College offers developmental courses consisting of arithmetic through intermediate algebra.

Students may opt to take their developmental courses in one of several formats. All formats require students to study and complete assignments outside of class. Variable sections are self-paced and computer-aided, have no fixed class meetings, and may permit a student to complete more than one course per semester. Interactive sections have regular class meeting with an instructor who uses computer-aided instruction. Hybrid classes meet with an instructor, but with less-frequent campus meetings, and require additional computer-aided instruction outside of class. Traditional lecture sections may include computer-aided instruction or online assignments.

Many of the mathematics courses are designated "Requires graphing Calculator" in the class schedule. These classes incorporate new technology into the curriculum. Both traditional and calculator methods of problem solving are taught. Instructors may choose to require or prohibit calculator use on certain assignments. Students do not need to be proficient with their calculators before enrolling to do well.

However, students are encouraged to acquire and learn to use the graphing calculator prior to enrolling in college-level courses which require a graphing calculator. Graphing calculators which perform algebraic manipulation are not permitted in any Southwestern College math course.

CAREER OPTIONS

Below is a sample of the career options available for the mathematics major. A few of these require an associate degree, most require a bachelor's degree, and some require a graduate-level degree: numerical analyst, teacher, engineering analyst, systems analyst, operations analyst, casualty rater, technical writer, research assistant, statistician, and computer specialist. In addition, there is presently a great need for high school and college mathematics instructors with this area of employment continuing to grow as society becomes more technological in business, industry, government, and education.

FACULTY Luis Osuna, M.D.

GENERAL DESCRIPTION

Designed to respond to the ever-increasing need for well-trained, skilled personnel to fill positions in the allied healthcare industry as medical assistants. Today's healthcare industry demands a higher level of thinking and performance skills than ever before. The medical assistant programs prepare students for careers as administrative medical or clinical assistants or as medical office managers. The administrative medical assistant provides service to patients within the front office environment. The clinical medical assistant provides some administrative services to patients with primary duties in a clinical (back office) environment.

CAREER OPTIONS

The U.S. Bureau of Labor and Statistics has placed medical offices and healthcare facilities among the top ten industries expected to generate the largest number of new jobs. Employment in health services is expected to grow quickly during the coming decades because of the expanding healthcare needs of an aging population. Few fields are as immune to recession as healthcare. Potential employers include, but are not limited to hospitals and doctors' offices, urgent care, outpatient surgery, industrial and sports medicine clinics; insurance companies, skilled nursing facilities, state and federal health agencies, and medical research institutions.

* Students planning to transfer to a four-year college or university should complete courses specific to the transfer institution of choice. University requirements vary from institution to institution and are subject to change. Therefore, it is important to verify transfer major preparation and general education requirements through consultation with a counselor in either the Counseling Center or Transfer Center. See catalog TRANSFER COURSES INFORMATION section on page 45 for further information.

** The Mathematics Department recommends the MATH 119 be taken as an elective if it is not chosen from Group

SCHOOL OF ARTS AND COMMUNICATION

DEAN Vacant, Office 702B, 619-482-6372

FACULTY Todd Caschetta, M.A.; Cynthia McGregor, Ph.D.; Jeffrey Nevin, Ph.D.; Jorge Pastrana, D.M.A.; Teresa Russell, D.M.A.

DEPARTMENT CHAIR Cynthia McGregor, Ph.D.

GENERAL DESCRIPTION

Music is the art and science of incorporating intelligible combinations of tones into a composition having structure and continuity. The most abstract of the arts, is music which is sound moving in time. The four elements of music are rhythm, melody, harmony, and tone color. Composers and performers are concerned with each of the musical elements, which are experienced by the listener as a web of sound that makes it difficult to single out any one individually. Though little is known of ancient music, it would seem the earliest form was probably the beating out of rhythms long before the existence of either melody or human speech. Rhythm is part of the universe, from our heartbeat to the pulsation of stars.

CAREER OPTIONS

Below is a sample of the career options available for the music major. A few of these require an associate in arts degree, most require a bachelor's degree, and some require a graduate-level degree: soloist, conductor, composer, private music teacher, high school or college instructor, music librarian, recording technician, band performer, backup artist, music critic, church music director, administrator, studio performer, record/CD producer, accompanist, arranger, copyist, publisher, and music therapist.

GENERAL DESCRIPTION

Nursing is the diagnosis and treatment of human responses to actual or potential health problems. The nurse assists the individual, sick or well, in the performance of those activities contributing to health or its recovery (or to peaceful death) that the individual would perform unaided if possessing the necessary strength, will, or knowledge. The nurse practices in many settings including hospitals, clinics, physicians' offices, extended care facilities, and homes in the community.

CAREER OPTIONS

Below is a sample of the career options available for the nursing major. Some of these require an associate degree, most require a bachelor's degree, and a few require a graduate-level degree: licensed vocational nurse, registered nurse, nurse clinician, nurse practitioner, nurse midwife, nurse administrator, and nurse educator. Nurses practice in many settings such as hospitals, extended care facilities, homes and clinics, and in the military. They may specialize in caring for specific age groups such as children or the aged. They may also specialize in certain areas such as medical, surgical, psychiatric, critical or emergency room care, obstetrics, pediatrics, and operating room.

THE ASSOCIATE DEGREE NURSING PROGRAM PHILOSOPHY

The associate degree nursing faculty advocates the mission and goals of Southwestern College and the ADN program; furthermore, the faculty is committed to the following beliefs, which guide the nursing curriculum:

BELIEFS ABOUT MAN, HEALTH, AND ILLNESS

- * Man is a unique individual with inseparable bio-psycho-social-spiritual needs.
- * Man's culture and ability to communicate needs are an integral component in health and wellness throughout the life span.
- * Health is a state of complete physical, mental, and social well-being, not merely the absence of disease or infirmity.
- * Health is on a continuum of maximum wellness to maximum illness throughout the life span.

BELIEFS ABOUT NURSING

- * Nursing is both an art and a science. The science of nursing is the knowledge base for the care that is given; the art of nursing is the skilled application of that knowledge to help others reach maximum function and quality of life throughout the life span.
- * Nursing is a profession that utilizes special skills and knowledge to provide safe care to the whole person in health and illness and in a variety of practice settings.
- * Nursing requires critical reasoning skills that focus on health promotion, illness prevention, restoring health, and facilitating coping while utilizing therapeutic communication methods.
- * Nursing care is determined by man's human responses resulting from changes in the structure and/or function of all body systems.

BELIEFS ABOUT STUDENTS, FACULTY, AND EDUCATION

- * Students are individuals with unique combinations of ethnic and cultural backgrounds, learning abilities, and support systems.
- * Optimal student learning takes place in a safe environment that is supportive, provides frequent feedback, as well as strategies for success.
- * Nursing faculty believe that learning is a lifelong process involving external changes in behavior and internal changes in thought process and attitudes. Nursing faculty are committed to their own lifelong learning and maintain currency in theory and skills through course work, CE opportunities, conferences and through their own experiential learning as a practitioner in the clinical setting.
- * Nursing faculty believe that the role of the faculty is to facilitate student learning by providing instruction, clinical experiences, resources, counseling, and guidance.
- * Nursing education incorporates knowledge from the humanities and the behavioral, physical, and natural sciences.
- * Nursing education remains current and incorporates such resources as The National Patient Safety Goals and Institute of Medicine Reports (as it relates to nursing) as references for both the faculty and the students.
- * Nursing faculty are committed to program core values that are reflected in each course: communication, clinical reasoning, cultural diversity, health promotion/illness prevention, life span development, nursing theory/skills, roles of the nurse, safety, evidence-based practice and quality improvement.

The Associate Degree Nursing program serves as the beginning preparation for the registered nurse with identified competencies, critical thinking, supervision, leadership, and delegation. Various nursing roles are also emphasized as the student nurse prepares for state licensure.

The Associate Degree Nursing program is accredited by the Accreditation Commission for Education in Nursing (ACEN).

Effective fall 2007, all ADN, LVN-ADN and VN students must pass the Test of Essential Academic Skills (TEAS). This is a diagnostic test that covers basic math, reading and science. Students may prepare for this test by going to the ATI testing site (<http://www.atitesting.com/>), then go to Assessments; go to Test of Essential Academic Skills (TEAS). The TEAS test is offered by the College once a month, and may be repeated only once. Under the new multi-criteria point system, a student will earn points for the first attempt only.

In addition to the above costs, students are required to pay for testing services provided by Kaplan Testing. These diagnostic tests are administered periodically throughout the nursing program beginning with an entrance test given during the first two weeks of classes. The test identifies weaknesses for the student to enable them to seek appropriate assistance during the program. Periodic additional tests must be passed before the student progresses in the program. Remediation is available for every student. A summer noncredit "Success in Nursing" course is encouraged for all students entering nursing.

Some financial assistance is available through Financial Aid. Application for assistance should be made early (preferably by April or May for new students) in the Financial Aid office. It is recommended that the student not work more than 20 hours per week.

Upon completion of degree requirements, the graduate is eligible to apply to take the National Council Licensure examination for Registered Nursing (NCLEX-RN). The Board of Registered Nursing (BRN) may refuse licensure to individuals who have been convicted of crimes and/or certain misdemeanors. Further information may be obtained from the BRN at 1747 North Market Blvd., Suite 150; Sacramento, CA 95834-1924 or the Program Director may be consulted. Program information may also be obtained from the Accreditation Commission for Education in Nursing, 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326.

The program below is undergoing modification and the modification will be placed into an addendum upon Chancellor's Office approval - see your counselor for further information and visit the college website under <http://www.swccd.edu/catalog> link for the latest addenda updates.

GENERAL DESCRIPTION

The chemical industry is diverse, vast, and touches nearly every aspect of our lives on a daily basis. Pharmaceutical and laboratory science is a discipline in which chemical principles are applied to solve problems or produce materials in a wide range of fields in the areas of high-technology, consumer products, and healthcare. An education in pharmaceutical and laboratory science provides the skills and knowledge essential to carry out the tasks necessary to push forward the progress of the multi-billion dollar chemical industry, including hands-on experience with state-of-the-art analytical instrumentation, small molecule synthesis, computational methods, and protein electrophoresis and purification.

CAREER OPTIONS

The San Diego region is home to one of the highest concentrations of pharmaceutical, biotechnology, and other chemistry-based industries in the United States. An ever-increasing demand for skilled chemical technicians exists in the local job market. Graduates of the program will have gained the knowledge and skills necessary to perform many of the key laboratory tasks undertaken in a variety of industrial settings where research and development and/or manufacturing take place. Chemical technicians provide valuable support in companies involved in drug discovery, environmental and forensics analyses, development of new materials, petroleum refining, and the manufacturing of plastics, electronic materials, textiles, paints, foods and beverages, and cosmetics, among many others.

DEAN Janet Mazzarella, M.A., Office 215A, 619-482-6344

FACULTY Ken Yanow, M.S., M.A.

DEPARTMENT CHAIR Jeffrey Veal, Ph.D.

GENERAL DESCRIPTION

The physical science program is an interdisciplinary approach to the study of science that stresses the interrelationship of chemistry and physics, as well as geology, biology, astronomy, earth science, and mathematics. Learning in this department offers a broad academic background and facility in analytic thinking requisite for advanced study in any of the sciences while providing a greater diversity of knowledge than is possible with study in a single science.

CAREER OPTIONS

The usual career goal of the physical science major is to become a teacher in high school. Upon completion of the bachelor's degree in physical science and other requirements for a single subject credential, graduates will be able to teach the following subjects in California high schools: chemistry, general science, physics, and physical science. Jobs for physical science teachers are becoming more plentiful with an increasing need for instructors in high school during the next ten years. Minority students or those proficient in Spanish are particularly in demand.

TRANSFER PREPARATION * (MAJOR CODE: 01670)

Lower-division requirements are not the same for all universities. The curriculum is designed for students who intend to transfer to a four-year college or university, such as SDSU, to earn a Bachelor of Science degree in order to become a high school science teacher. The State of California does not offer separate credentials in either chemistry or physics.

PROGRAM STUDENT LEARNING OUTCOME STATEMENT:

- Students should be able to demonstrate broad science content knowledge in the physical sciences such as the nature and structure of matter, Earth's place in the Universe, and the conservation of energy and matter.
- Students should be able to demonstrate the application of quantitative skills (such as statistics, mathematics and the interpretation of numerical graphical data) to physical science problems.
- Students should be able to demonstrate a general understanding of the nature of science, the methods applied in scientific investigations, and the value of those methods in developing a rigorous understanding of the physical world. Students should be able to identify the difference between science and other fields of knowledge.

Continuing Education is an umbrella term that includes noncredit, contract, and fee-based courses. Continuing education provides the opportunity for community residents to improve, upgrade, and learn new skills and knowledge. This effort responds to the need for a well-trained workforce, as well as the individual need for intellectual or cultural enrichment. The Continuing Education Program supports the mission of California Community Colleges.

NONCREDIT COURSES

Noncredit courses are courses that meet community needs in ten instructional areas: parenting, basic skills, English as a Second Language (ESL), citizenship for immigrants, courses for the disabled, vocational courses, courses for older adults, home economics, health and safety, and workforce preparation [California Education Code, Section 84757(a) and 84760.5, and Title 5, Section 58160.] Noncredit courses are open to the public, are tuition-free, and are not offered for college credit. The College receives apportionment for noncredit courses at approximately half the rate for credit courses. Credit and noncredit courses are approved by the College's Curriculum Committee (See Section 4.D.1 for a more detailed explanation).

Noncredit courses are tuition free and are subsidized by state funds. These courses require all students to complete the Noncredit Application. Most noncredit classes do allow on-site registration on a space-available basis. Course numbers for noncredit classes start with "NC." Students seeking to enroll in a noncredit class must complete a Noncredit Application if they have not taken a noncredit course within the last semester.

NONCREDIT REGISTRATION IS ALSO AVAILABLE THROUGH WEBADVISOR

If you are currently attending Southwestern College or have attended a credit or noncredit class within the last semester, you may register by WebAdvisor. To register, you must have

your student identification number or your social security number, and the course and section number. This option is only available up to the Friday before the semester begins. Class adds starting with the first day of classes require a completed Noncredit Application or class add form.
