

# MYPD

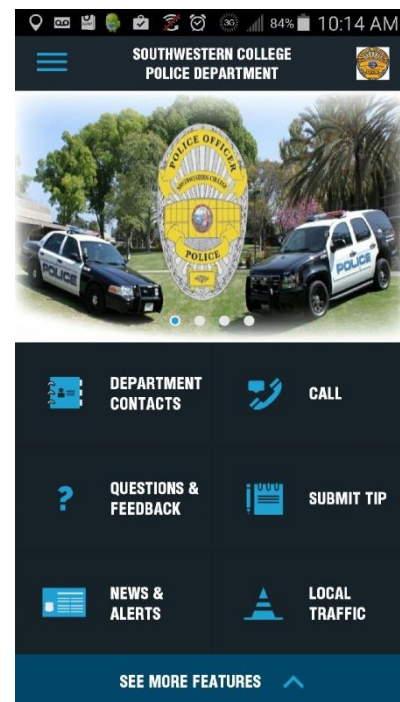

Placing law enforcement and public safety services at your fingertips! The MyPD app is built to connect the public to their local police and allow the community to become more involved right from your Smartphone.

(Please note, This app is used by agencies that opt in to use it. If your community has not opted to use MyPD than you should not expect to find them on the app) Local, State, and College Police Departments as well as other law enforcement agencies are using this app to provide you with better service and improve communication.

The MyPD app is free to download and does not require you to sign in or sign up to use the app. Law Enforcement agencies using this app are offering citizens the following options:

- Multiple information resources and RSS feeds
- 2 types of push notifications
- Report anonymous crime tips
- Commend a Police Officer
- Submit Feedback to your Police
- Ask Questions
- Community Surveys
- Directions to the Police Department
- Police Department Contacts
- Social Media
- Most Wanted
- Blog
- Jail Info
- Weather Service
- National Terrorism Advisory System
- FEMA
- New & Alerts page
- Crime Map
- Website
- Online Reporting
- Encrypted transfer of messages
- Many more additional features

These are just some of the many options that your Police Department is making available to you here. A growing number of Police Departments are utilizing this app for the citizens they serve. If you don't see your Department here, let them know they should join!
