

SOUTHWESTERN COLLEGE CENTRAL SERVICE TECHNOLOGY PROGRAM

The purpose of the Central Service Technology Program is to train entry level workers in proper sterilization of surgical instruments and handling of medical equipment. Upon satisfactory completion of the program, the student is eligible for a Southwestern College Certificate of Achievement and to take the International Certification Exam (IAHCSMM).

The course covers introduction to central service; topics include microbiology, aseptic technique, disinfection, decontamination, sterilization, and wrapping/packaging of surgical instruments. Review of body systems and surgical instruments. Medical terminology, safety, risk management, regulations, inventory management, ethical responsibilities, and communication skills. Laboratory experience supports the introduction to the hospital Central Supply Unit and the role of the Central Supply Technician.

The program consists of **three courses**. Each course is nine-weeks in length (for a total of 27 weeks) and is limited to 20 students per course.

- **ST 10A** is generally offered two evenings a week (Tuesdays & Thursdays) 6:00 – 9:50 p.m. and Saturdays 8:00 – 11:50 a.m. for 8-weeks.
- **ST 10B & ST 10C** courses are two hundred hours laboratory, all hours to be arranged with the instructor.

The program accepts 20 students per cohort, Fall only. All **accepted** students are expected to meet on the first day for roll call. Accepted students who fail to attend class will be dropped and may re-apply for the next available application period.

COMPLETE APPLICATIONS: Submitted in person or US Mail to the Higher Education Center, Otay Mesa, 8100 Gigantic Street San Diego, CA 92154 Office 4502. Once application packet is submitted, it becomes our sole property. Please make copies of your records prior to applying.

**SOUTHWESTERN COLLEGE
CENTRAL SERVICE TECHNOLOGY PROGRAM**

The salary of a Central Service Technician ranges from \$16.00 to \$25.00 per hour and varies by experience. A technician works with medical supplies, equipment and/or processing of surgical instruments. The duties include:

- Collection and transportation of contaminated items; medical instruments and equipment from soiled utility rooms throughout the medical center.
- Operation of a variety of equipment such as sterilizers, ultra-sonic washers, washer sterilizers.
- Know and recognize the proper cleaning and asepsis procedures for each specialized instrument and complex scope being processed.
- Assemble surgical instrument trays to include label, date, and inspect for packaging integrity.
- Assist with product testing and equipment evaluation.
- Determine the type of case cart set-up needed for a particular surgical case.
- Conduct physical inventories of supply areas.
- Ability to process, assemble, troubleshoot, prepare, sterilize, store, and issue sterile and non-sterile medical supplies and equipment.
- Knowledge of the technical names, general uses, physical characteristics, and operating conditions of medical supply items, general uses, physical characteristics, and operating conditions of medical supply items, decontamination, cleaning, preparation, sterilization, and storage procedures, aseptic techniques, and skills in operating gas and steam sterilizers.

Here is an interesting YouTube video of what a Central Service Technology career consists of.
