Maintenance Drugs (up to a 90-day supply)

- Use Express Scripts Smart90 pharmacy or Express Scripts Home Delivery for lowest cost

Out-Of-Pocket Maximum: Once you reach your out-of-pocket maximum of \$3,000 individual/\$6,000 family, your plan pays 100 percent of prescription drug expenses for the remainder of the benefit year.

Note: If your doctor requests a brand-name medication when a generic equivalent is available, you will pay the generic copayment, plus the difference in cost between the brand and the generic (even if your doctor writes dispense as written on the prescription).

For short-term prescriptions, such as antibiotics, use an EAN pharmacy (for lower copays) or a non-EAN pharmacy (where you pay \$5 extra for each short-term prescription).

Your Express Scripts Advantage Network exceeds 34,000 pharmacies consisting of approximately 50% independent pharmacies in addition to grocers and mass merchants. To find a participating pharmacy near you, visit Express-Scripts.com and select “Locate a Pharmacy” from the menu under “Manage Prescriptions.” You can also get pharmacy information by calling Member Services at 800.918.8011. The pharmacy network is designed to provide members with lower prescription costs at nearby participating retail pharmacies. Please be aware that you will pay a higher amount if you choose to use non-EAN pharmacy.

For Maintenance medications, such as those used to treat high blood pressure or high cholesterol, use a **Smart90 (Costco or RiteAid) pharmacy or Express Scripts Home Delivery**.

Important Note: you'll pay a higher cost for a maintenance medication if you fill it at a retail pharmacy other than a Smart90 pharmacy **after the third purchase**. The medications affected by this plan limit may change.

Drug conversion programs:

If you are prescribed a drug that is not on your health plan's preferred list, yet an alternative plan preferred drug exists, we may contact your doctor to ask whether that drug would be appropriate for you. If your doctor agrees to use a plan-preferred drug, you will usually pay less.

Use generics and preferred medications. If you are taking a medication that's not on the preferred list, ask your doctor to consider prescribing a lower-cost generic or preferred brand-name drug. To find out which drugs are preferred, visit Express-Scripts.com and select "Learn about Formularies" from the menu under "Health & Benefits Information" menu.

Prior authorization: When is a coverage review necessary?

Some medications are not covered unless you first receive approval through a coverage review (prior authorization). This review uses plan rules based on FDA-approved prescribing and safety information, clinical guidelines and uses that are considered reasonable, safe and effective.

There are other medications that may be covered, but with limits (for example, only for a certain amount or for certain uses), unless you receive approval through a coverage review. During this review, Express Scripts asks your doctor for more information than what is on the prescription before the medication may be covered under your plan. To find out whether a medication requires a coverage review, log in to Express-Scripts.com, select "Price a medication" from the menu under "Manage Prescriptions", and search for your medication. On the pricing results page, select "View coverage notes" to see coverage details.
