

Intersegmental General Education Transfer Curriculum (IGETC)

University of California and California State University

2011-2012

Subject to change each year

This document does not replace a Student Education Plan (SEP)

The Intersegmental General Education Transfer Curriculum (IGETC) is a general education pattern that will meet all lower-division general education requirements at most California State University (CSU) or University of California (UC) campuses. Completion of the IGETC is not a requirement for admission to the CSU or UC, nor will its completion guarantee admission to a CSU or UC campus. The IGETC pattern is not the only way to fulfill lower-division general education requirements. Depending on the major or field of interest, it may be advantageous to fulfill the general education breadth of the specific CSU or UC campus. Students with high unit majors or those that require extensive lower division preparation, such as engineering, should concentrate on completing the prerequisites for the major.

Please consult with a counselor to determine whether IGETC is appropriate for your educational needs and on the usage of the University of California "Quick Reference for Counselors" 2011-2012 regarding UC campus specific IGETC acceptance and requirements.
