

ADVANCED PLACEMENT PROGRAM (APP)

Students will be granted college credit for advanced placement courses provided they have attained satisfactory scores on appropriate examinations conducted by the College Entrance Examination Board. Credit will be granted for Advanced Placement Test scores of 3 and above.

When registering to take the examination, students should request that their test scores be sent to Southwestern College.

To apply for credit, students are required to file a petition in the Admissions Center.

Credit may not be earned at Southwestern College for courses which duplicate credit already allowed for examinations as listed under course equivalents, and credit will not be posted on a student's permanent record.
