

ON-CAMPUS RECRUITING BY OUTSIDE AGENCIES

1. **Philosophy** - Justification for permitting recruiting to take place on the campus of Southwestern College is that it shall render a service to the student and/or community that the College serves.
2. **Procedure** - Approval shall conform to basic philosophy as set forth in this policy. Recruiting groups will be assigned a location from which to operate. The student body will be adequately notified of the recruiting groups presence and intent. Reasonable advance notification will be given to the College by prospective recruiters. Whenever possible, no more than two recruiting groups will be represented on campus on any one day, at any one given period of time. The A.S.O. Senate should be informed of groups or organizations which request use of campus facilities for the purpose of recruiting. Should a question arise as to the validity of a group or organization as a recruiting organization (definition of recruiters based on the recruiting philosophy), the A.S.O. Senate will discuss and vote on whether to permit said group or organization to recruit on campus and forward its recommendation to the Student/College Relations Committee.
