

SouthwesternCommunity College District Educational/Facilities Master Planning

Program of Instruction and Space Needs Forecast

Maas Companies, Inc. and LPA, Inc.

May 1, 2007

Educational & Facilities Master Plan

Steps in the process

- Data gathering and environmental scan to project enrollment/FTES growth
- Analyze the program of instruction and support services
- Forecast the program of instruction and support services to the target year 2020
- Project future space needs for the College to 2020 to deliver the forecasted programs and services

Process

Program of instruction analysis

- Identify baseline program of instruction (Fall 2005)
- Evaluate the program relative to Chancellor's Office standards and other California Community Colleges
- Create growth model
- Project into the future Make recommendations

SWC Enrollment Management

Case Study

Case Study

Southwestern College 2002 – 2005 Trends					
	2002	2005	Change		
WSCH	201,381	201,199	- 182 WSCH (No Growth)		
Sections Offered	2,183	2,301	+ 118 Sections		
Additional FTEF			23.6 FTEF		
Additional Costs	\$2 million per semester				

Case Study

- Comparing the Fall 2005 and Fall 2006 semesters
 - SWC added 56 net sections
 - FTES increased by 15
 - FTEF increased by 12

Incremental Fiscal Impact Per Semester		
SWC Allotment from State	\$64,500	
Part-time faculty expense	\$900,000	

Case Study Impacts

- Fiscal
 - Additional costs not funded by the State

- Facilities
 - Shortage of instructional spaces at the College
 - Inefficiency in number of sections offered means no eligibility for funding additional space from State

Southwestern College

TOTAL	2,061	27.1	190,543.4	92.5	6,545.7	489.6

Summary of the Current Program

Fall 2005 Semester				
Net Sections	2,061			
Average Class Size	27.1			
Semester FTES	6,546			
FTEF	490			
WSCH (weekly student contact hours)	190,543			
WSCH/Section	92.5			
WSCH/FTEF	389.2			

WSCH per Section Profile

WSCH (FTES) per Section

- Currently the College is generating 92.5
 WSCH/Section
- This is below the average for California Community Colleges (116 WSCH/Section)
- The College should be able to serve the same student enrollment level (FTES) with 350 fewer sections
- Translated, this means that the AVERAGE class size increases as follows:
 - 2005 27.1
 - <u>2010 2</u>7.7
 - 2020 32.7

How do we get there?

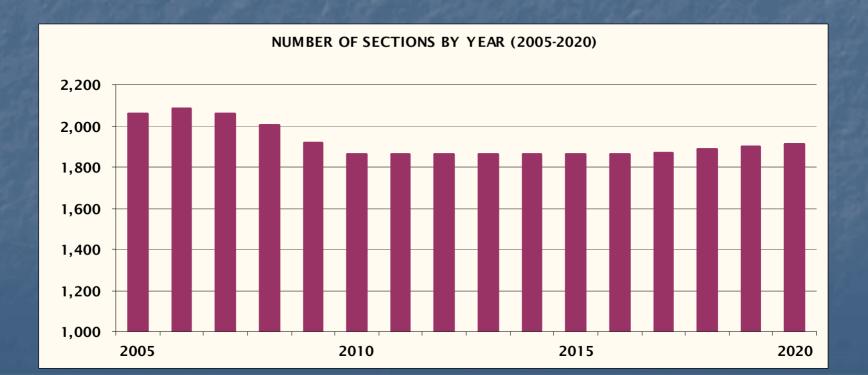

Growth Projections

 Based on the environmental scan, annual growth of WSCH (FTES) - and headcount - is projected to be 1.6% through the year 2020

Recommendation

- Our recommendation calls for a reduction of 200 Net Sections (10%) through Fall of 2010
- The number of sections will then remain flat through 2015
- Over this time, the College will grow into the number of sections offered
- After 2015 sections will grow commensurate with WSCH growth

Department Analysis

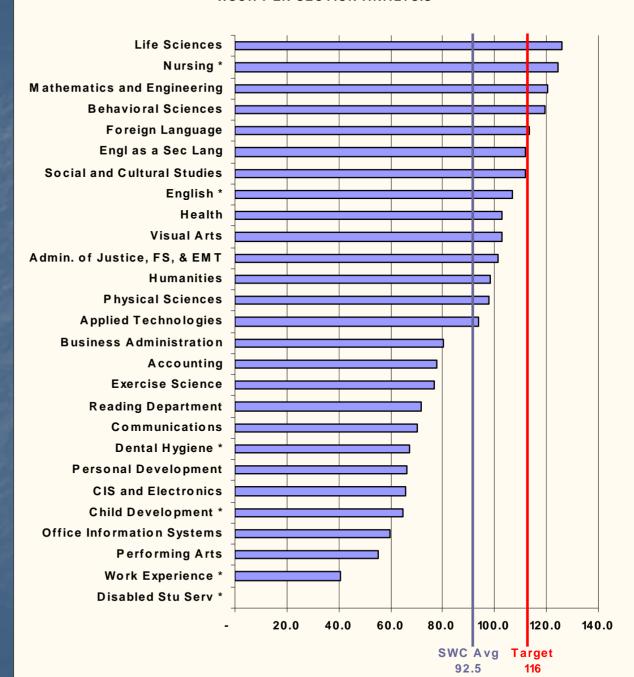

WSCH PER SECTION ANALYSIS

WSCH per Section Analysis

• SWC: 92.5

• CC AVG: 116

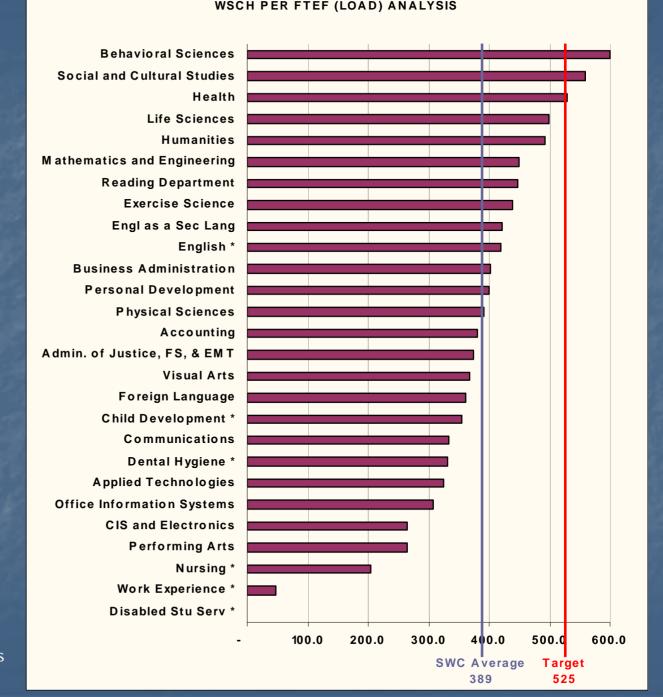

* These programs have fixed enrollments or other characteristics that might influence their ratios.

WSCH per FTEF (Load) Analysis

• SWC: 389

• Target: 525

 These programs have fixed enrollments or other characteristics that might influence their ratios.

TOTAL	2,061	1,862	(199)	(33)	-2%		

Recommendations

- Adopt College-wide section targets for 2010
- Adopt Department section targets for 2010
- Deans, Chairs and Faculty collaborate to identify specific sections to be eliminated or consolidated
- Staffing reductions will be among part-time faculty (predominantly by natural attrition)
- Perform an annual review to measure outcomes versus targets

Results

- If the 2010 targets are achieved...
 - Enrollments and FTES will still grow by 6%
 - Average class size will increase by approximately .6 students
 - Staffing costs will be reduced by \$2.2 million per year
 - The current classroom shortage will be eliminated
