SOUTHWESTERN COMMUNITY COLLEGE DISTRICT

Pre-Qualification Policy and Documents Adopted:

December 14, 2011

**CENTRAL PLANT, FIELD HOUSE AND STADIUM IMPROVEMENTS
AND THE CORNER LOT PROJECTS**

I. INTRODUCTION

1. Pursuant to Public Contract Code section 20651.5, contractors bidding (hereinafter "Contractor" or "Contractors") on the **Central Plant, Field House and Stadium Improvements and the Corner Lot Projects** shall be subject to this Pre-Qualification Policy and shall be required to furnish sufficient proof of public works experience and financial ability in performing public works by completing and submitting standard pre-qualification documents and providing specified supporting documentation, which submission is verified under oath by the Contractor in the manner in which pleadings in civil actions are verified.
2. **Southwestern Community College District** ("District") has determined that it will require this process on the **Central Plant, Field House and Stadium Improvements and the Corner Lot Projects** in the following circumstances.

*For contracts where the contract sum is estimated to exceed **\$1,000,000**. See list of required trades included as **Attachment "A-1"**.*

3. Contractors seeking pre-qualification are required to submit to the District completed pre-qualification documents ("Pre-Qualification Documents") and any and all documents required therein. (The Pre-Qualification Documents and additional requirements are set forth in **Attachment "A"**.) The Pre-Qualification Documents will be the basis for determining which Contractors are qualified to bid on the Southwestern Community College **Central Plant, Field House and Stadium Improvements and the Corner Lot Projects**. Pursuant to Public Contract Code section 20651.5, the questionnaire responses of prospective bidders and their financial statements are not public records and are not open to public inspection.
4. A Contractor is either pre-qualified in accordance with the limits mentioned above or not based on the District's uniform rating system described herein. No rating other than a positive or negative pre-qualification determination shall be established by this process.
5. A positive pre-qualification determination shall be good for **one (1) year** from the date of the District's notice for pre-qualification pursuant to Public Contract Code section 20111.5(e) for the **Central Plant, Field House and Stadium Improvements and the Corner Lot Projects**.

II. Pre-Qualification Standards and Notification

1. In addition to fulfilling all of essential pre-qualification requirements and providing all of the required supplemental documents (Pre-Qualification Documents and related documents), Contractors must achieve a score of **75** points or higher, out of a total possible **100** points, on those questions in the Qualification Documents for which point values are assigned in order to be pre-qualified to bid on the **Central Plant, Field House and Stadium Improvements and Corner Lot Projects**.

2. All supplemental documents are to be submitted on 8 ½ by 11 sheets and must be organized and identified in accordance with the requirements of the Pre-Qualification Documents.
3. The District requests that completed Pre-Qualification Documents and supporting materials be submitted not later than **2:00 pm on January 11, 2012**. *Contractor shall be responsible for clearly filling out all the requested information in the documents here-in, including self-rating on the Pre-Qualification Questionnaire. In the sections of the questionnaire that require project listings, the contractor shall clearly indicate which projects are included in the point calculations. Incomplete or unclear information may be grounds for disqualification.* The District shall inform Contractors, in writing, of the pre-qualification determination within five (5) business days following submission of completed pre-qualification Documents and supporting materials. If a Contractor decides to appeal a negative pre-qualification determination pursuant to the appeal procedures described below, any such appeal must be filed within five (5) days of the date of the notice of negative determination.

Completed pre-qualification packages should be marked "Confidential" and mailed or delivered to:

*Southwestern Community College District
Attn: John R. Brown, P.E.,
Director of Facilities, Operations, and Planning
900 Otay Lakes Road, Building 1688
Chula Vista, CA 91910*

4. The Contractor's submittal must be signed under penalty of perjury by an individual who has the legal authority to bind the Contractor on whose behalf that person is signing. In addition to disqualification for failure to meet the District's criteria, Contractor may be automatically disqualified for a failure to provide the requested information or falsification of information required by this Pre-qualification Standards Document.

III. Appeal Procedures

1. In conjunction with this pre-qualification policy, the District also hereby establishes the Bidder Pre-Qualification Appeals Panel ("Appeal Panel") consisting of a minimum of two of the following, or their designee(s): the District's Vice President for Business and Financial Affairs, Director of Purchasing, and/or a District Administrator to be appointed by the Vice President of Academic Affairs. The sole issue before the Appeals Panel shall be the scoring of a Contractor. The decision of the Appeals Panel shall be the District's final administrative decision and any judicial review thereof shall be instituted no later than the time period referred to in section 1094.6 of the Code of Civil Procedure.

- (a) Where a complete and timely submitted application results in a rating below the necessary to pre-qualify, an appeal can be made. An appeal is begun by the Contractor delivering notice to the District of its appeal of the decision with respect to its pre-qualification rating, no later than five (5) business days after the date of the District's notice of the negative pre-qualification determination. Notice will be provided in writing delivered through U.S. Postal Service mail at the address noted above. Without a timely appeal, the Contractor waives any and all rights to challenge the decision of the District, whether by administrative process, judicial process or any other legal process or proceeding.
- (b) If the Contractor gives the required notice of appeal and requests a hearing, the hearing shall be conducted so that it is concluded no later than five (5) business days after the District's receipt of the notice of appeal, and no later than five (5) business days prior to the last date for the receipt of bids on the Project. The hearing shall be an informal process conducted by the Appeals Panel to whom the District's governing board has delegated responsibility to hear such appeals. At or prior to the hearing, the Contractor will be advised of the basis for the District's pre-qualification determination. The Contractor will be given the opportunity to present information and present reasons in opposition to the rating. Within one day after the conclusion of the hearing, the Appeals Panel will render its decision. It is the intention of the District that the date for the submission and opening of bids will not be delayed or postponed to allow for completion of an appeal process.

Note: A Contractor may receive a negative pre-qualification determination for the Project if the Contractor fails to meet the District's minimum requirements. In addition, a Contractor may be found not pre-qualified for either: (1) Omission of requested information; or (2) Falsification of information.
