

Institutional Student Learning Outcomes (ISLOs) Progress Report

Fall 2012 Results

Prepared by: Caitlin Phillips, Research Analyst
Office of Institutional Effectiveness, January 2014

The purpose of this document is to provide an overview of Institutional Student Learning Outcomes (ISLOs) results for the Fall 2012 academic term at Southwestern College. The first portion of this report includes definitions of all sixteen of Southwestern College's ISLOs and provides an overview of the total number of students assessed on each outcome. Student performance scores were linked to eleven of the sixteen available ISLOs. The second portion of this report presents individual ISLO data disaggregated by level of student proficiency. Disaggregated ISLO data is illustrated using bar graphs to facilitate interpretation of student performance for each outcome. Bar charts reflect the structure of the grading rubric for ISLO assessment, which is comprised of five categories: "Mastery", "High Proficiency", "Proficiency", "Low Proficiency", and "No Proficiency". Results are presented in the form of counts and percentages and are located adjacent to each bar graph category. The number of students who were *not* assessed is reported for each ISLO as "Not Scored;" however, these students are not included in the descriptive analysis.
